September 19, 2022

MEMPHIS, Tenn., Sept. 19, 2022 (GLOBE NEWSWIRE) -- AutoZone, Inc. (NYSE: AZO) today reported net sales of \$5.3 billion for its fourth quarter (16 weeks) ended August 27, 2022, an increase of 8.9% from the fourth quarter of fiscal 2021 (16 weeks). Domestic same store sales, or sales for stores open at least one year, increased 6.2% for the quarter.

"Our results are a testament to our AutoZoners' ongoing commitment to delivering exceptional customer service every day. Our retail business performed well this quarter ending with positive same store sales on top of last year's strong performance. And, our commercial business growth continued to be exceptionally strong at 22%. The investments we have made in both inventory availability and technology are enhancing our competitive positioning. We are optimistic about our growth prospects heading into our new fiscal year," said Bill Rhodes, Chairman, President and Chief Executive Officer.

For the quarter, gross profit, as a percentage of sales, was 51.5%, a decrease of 73 basis points versus the prior year. The decrease in gross margin was driven by accelerated growth in our Commercial business and a 28 basis point non-cash LIFO charge driven largely by rising freight costs. Operating expenses, as a percentage of sales, were 30.9% versus 31.0% last year.

Operating profit increased 5.7% to \$1.1 billion. Net income for the quarter increased 3.1% over the same period last year to \$810.0 million, while diluted earnings per share increased 13.4% to \$40.51 from \$35.72 in the year-ago quarter.

For the fiscal year ended August 27, 2022, sales were \$16.3 billion, an increase of 11.1% from the prior year, while domestic same store sales were up 8.4%. Gross profit, as a percentage of sales, was 52.1% versus 52.8%. The decrease in gross margin was primarily attributable to the initiatives to accelerate growth in our Commercial business. Operating expenses, as a percentage of sales, were 32.0% versus 32.6%. For fiscal 2022, net income increased 11.9% to \$2.4 billion and diluted earnings per share increased 23.1% to \$117.19 from \$95.19. Return on invested capital finished at 52.9%.

Under its share repurchase program, AutoZone repurchased 474 thousand shares of its common stock for \$1 billion during the fourth quarter, at an average price of \$2,111 per share. For the fiscal year, the Company repurchased 2.2 million shares of its common stock for \$4.4 billion, at an average price of \$1,964 per share. At year end, the Company had \$1.058 billion remaining under its current share repurchase authorization.

The Company's inventory increased 21.5% over the same period last year, driven by our growth initiatives and inflation. Net inventory, defined as merchandise inventories less accounts payable, on a per store basis, was negative \$240 thousand versus negative \$203 thousand last year and negative \$216 thousand last quarter.

"We are committed to being the best place to shop for everyone's automotive needs while delivering on our ongoing promise to be a great place to work. We believe our initiatives will drive growth in the new fiscal year. As we continue to prudently invest capital in our business, we remain steadfast in our long-term, disciplined approach to increasing operating earnings and cash flows while utilizing our balance sheet effectively," said Rhodes.

Additionally, AutoZone announced today that Doug Brooks is not standing for re-election to the Company's Board of Directors at the Annual Meeting of Stockholders to be held December 14, 2022. "AutoZone has truly benefited from Doug's insightful guidance, tutelage, and service these past nine years. Doug's efforts have contributed to helping make our Company what it is today. I thank him for his leadership and commitment to our Company, and I wish him well in his future endeavors." said Rhodes.
