ABOUT AUTOZONE

We are the nation's leading specialty retailer of automotive parts and accessories, with most of our sales to do-it-yourself ("DIY") customers. We began operations in 1979 and at February 9, 2002, operated 3,037 auto parts stores in the United States and 23 in Mexico. Each auto parts store carries an extensive product line for cars, vans and light trucks, including new and re-manufactured automotive hard parts, maintenance items and accessories. We also have a commercial sales program in the United States that provides commercial credit and prompt delivery of parts and other products to local repair garages, dealers and service stations. We do not sell tires nor do we perform automotive repair or installation.

In addition, we sell automotive diagnostic and repair information software through our ALLDATA subsidiary and diagnostic and repair information through alldatadiy.com.

We are dedicated to providing customers with superior service, value and quality automotive parts and products at conveniently located, well-designed stores. We have implemented this strategy primarily through knowledgeable and motivated store personnel trained to emphasize prompt and courteous customer service, through an everyday low price policy and by maintaining an extensive product line with an emphasis on automotive hard parts. Our stores are generally situated in high-visibility locations and provide a distinctive merchandise presentation in an attractive store environment.

Our executive offices are located at 123 South Front Street, Memphis, Tennessee 38103, and our telephone number is (901) 495-6500. AutoZone is a Nevada corporation.

RISK FACTORS

An investment in our common stock involves a degree of risk. You should carefully consider the risks and uncertainties described below and other information contained in this prospectus before you decide whether to invest in our common stock. If any of the following risks actually occur, our business, financial condition, results of operations and liquidity could be materially adversely affected. This may cause the trading price of our common stock to decline after this offering, and you may lose part or all of your investment.

We may not be able to increase sales by the same historic growth rates.

We have significantly increased our domestic store count in the past five fiscal years, growing from 1,143 stores at August 25, 1996, to 3,019 stores at August 25, 2001, an average store count increase per year of 16%. We do not plan to continue our store count growth rate at the historic pace. In addition, a portion of our total sales increases each year results from increases in sales at existing stores. We cannot provide any assurance that we can continue to increase same store sales as our stores mature in their markets.

We have an ever-increasing need for qualified employees.

In fiscal year 2001, our consolidated employee count increased from approximately 43,200 at the beginning of the year to about 44,600, a 3% increase in the year. We do not know if we can continue to hire and retain qualified employees at current wage rates. In the event of increasing wage rates, if we do not increase our wages competitively, our customer service could suffer by reason of a declining quality of our workforce or, alternatively, our earnings would decrease if we increase our wage rates.

If demand for our products slows, then our business may be materially affected.

Demand for products sold by our stores depends on many factors. In the short term, it may depend upon:

- . the weather, as vehicle maintenance may be deferred during periods of inclement weather. However, as AutoZone stores are geographically disbursed, isolated instances of inclement weather will generally not have a material effect upon our aggregate sales.

. the economy, as during periods of good economic conditions, more of our do-it-yourself customers may pay others to repair and maintain their cars instead of working on their own vehicles, or they may purchase new vehicles. This factor is tempered by our commercial parts sales program that sells parts to installers. In periods of declining economic conditions, both do-it-yourself and do-it-for-me customers may defer vehicle maintenance or repair.

For the long term, demand for our products may depend upon the quality of the vehicles manufactured by the original vehicle manufacturers and the length of the warranty offered on new vehicles.

If we are unable to compete successfully against other businesses that sell the products that we sell, we could lose customers and our revenues and profits may decline.

The sale of automotive parts, accessories and maintenance items is highly competitive in many areas, including name recognition, product availability, customer service, store location, and price, with many competitors. AutoZone competes in both the DIY and commercial auto parts and accessories markets. Competitors include national and regional auto parts chains, independently owned parts stores, wholesalers and jobbers, repair shops, car washes, and auto dealers, in addition to discount and mass merchandise stores, department stores, hardware stores, supermarkets, drugstores, and home stores which sell aftermarket vehicle parts and supplies, chemicals, accessories, tools and maintenance parts. Although we believe we compete effectively on the basis of customer service, including the knowledge and expertise of our AutoZoners, merchandise selection and availability, product warranty, store layout, location and convenience, some competitors may have competitive advantages, such as greater financial and marketing resources, larger stores with more merchandise, longer operating histories, more frequent customer visits, and more effective advertising. If we are unable to continue to develop successful competitive strategies or our competitors develop more effective strategies, we could lose customers and our revenues and profits may decline.

If we cannot profitably increase market share in the commercial auto parts business, our sales growth may be limited.

Although we are one of the five largest sellers of auto parts in the commercial "do-it-for-me" market, to increase commercial sales we must compete against automotive aftermarket jobbers and warehouse distributors, in addition to other auto parts retailers that have recently entered the commercial business. Some of these jobbers and warehouse distributors have been in business for substantially longer periods of time than we have, have developed long-term customer relationships and have larger available inventories. We can make no assurances that we can profitably develop new commercial customers or make available inventories required by commercial customers.

If we cannot profitably open and operate stores in international markets, our sales growth may be limited.

We opened our first auto parts stores in Mexico during fiscal year 1999. We do not currently have any retail store locations in any country other than the United States and Mexico. While we believe that great potential exists for auto parts stores in the fragmented international auto parts market, we have little experience opening or operating stores outside of the United States, and no assurances can be made that we can open additional stores in Mexico or stores in any other country in a timely or profitable manner.

In addition, products sold in Mexico must be properly labeled for sale in accordance with Mexican law. If AutoZone cannot source products in Mexico, it must obtain products elsewhere and have them appropriately labeled for sale in Mexico. We can make no assurances that we can purchase goods of appropriate quality or in sufficient quantities in Mexico to sell in our stores, nor can we make any assurances that we can profitably obtain products outside of Mexico and have them relabeled in accordance with Mexican law.

If our vendors continue to consolidate, we may pay higher prices for our merchandise.

Recently, several of our vendors have merged and others have announced plans to merge. Further vendor consolidation could limit the number of vendors from which we may purchase products and could materially affect the prices we pay for these products.

Consolidation among our competitors may negatively impact our business.

Recently, several large auto parts chains have merged. We do not know what impact these mergers will have upon competition in the retail automotive aftermarket. If our merging competitors are able to achieve efficiencies in their mergers, then there may be greater competitive pressures in the markets in which they are strongest.

War, acts of terrorism, or the threat of either may negatively impact availability of merchandise and adversely impact our sales.

In the event of war, acts of terrorism, or either are threatened, it may have a negative impact on our ability to obtain merchandise available for sale in our stores. Some of our merchandise is imported from other countries. If imported goods become difficult or impossible to bring into the United States, and if we cannot obtain such merchandise from other sources at similar costs, our sales and profit margins may be negatively affected. In addition, a significant amount of the merchandise sold in our Mexico stores is exported from the United States. If we cannot export this merchandise in a timely manner, sales in our Mexico stores may be adversely affected.

In the event that commercial transportation is curtailed or substantially delayed, our business may be adversely impacted, as we may have difficulty shipping merchandise to our distribution centers and stores.

USE OF PROCEEDS

We will not receive any proceeds from the sale of shares of the common stock by the selling stockholders. All proceeds from the sale of our common stock will be for the account of the selling stockholders, as described below. See "Selling Stockholders" and "Plan of Distribution" described below.

PLAN OF DISTRIBUTION

The selling stockholders, their pledgees, donees, transferees or other successors-in-interest, may, from time to time, sell all or a portion of the shares of common stock covered by this prospectus in market transactions or privately negotiated transactions or otherwise, at fixed prices that may be changed, at market prices prevailing at the time of sale, at prices related to such market prices or at negotiated prices. The shares of common stock may be sold by the selling stockholders by one or more of the following methods, without limitation:

- . market transactions in accordance with the rules of the New York Stock Exchange or any other available markets or exchanges;
- . ordinary brokerage transactions and transactions in which the broker solicits purchasers;
- . block trades in which the broker or dealer so engaged will attempt to sell the shares of common stock as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- . purchases by a broker or dealer as principal and resale by such broker or dealer for its account pursuant to this prospectus;
- . privately negotiated transactions;
- . distributions to the partners and members of the selling stockholders;
- . redemptions or repurchases of interests owned by partners or members of the selling stockholders;
- . a combination of any such methods of sale; and
- . any other method permitted pursuant to applicable law.

Subject to applicable law, from time to time the selling stockholders may engage in puts and calls and other transactions in securities of AutoZone or derivatives thereof and may sell and deliver the shares of common stock in connection therewith in settlement of securities loans. From time to time the selling stockholders may pledge their shares of common stock pursuant to the margin provisions of its customer agreements with its brokers. Upon a default by the selling stockholders, the broker may offer and sell the pledged shares of common stock from time to time.

In effecting sales, brokers and dealers engaged by the selling stockholders may arrange for other brokers or dealers to participate in such sales. Brokers or dealers may receive commissions or discounts from the selling stockholders (or, if any such broker-dealer acts as agent for the purchaser of such shares, from such purchaser) in amounts to be negotiated which are not expected to exceed those customary in the types of transactions involved. Broker-dealers may agree with the selling stockholders to sell a specified number of such shares of common stock at a stipulated price per share, and, to the extent such broker-dealer is unable to do so acting as agent for a selling stockholder, to purchase as principal any unsold shares of common stock at the price required to fulfill the broker-dealer commitment to the selling stockholders. Broker-dealers who acquire shares of common stock as principal may thereafter resell such shares of common stock from time to time in transactions (which may involve block transactions and sales to and through other broker-dealers, including transactions of the nature described above) in the over-the-counter market or otherwise at prices and on terms then prevailing at the time of sale, at prices then related to the then-current market price or in negotiated transactions and, in connection with such resales, may pay to or receive from the purchasers of such shares commissions as described above. The selling stockholders may also sell the shares of common stock in accordance with Rule 144 under the Securities Act, rather than pursuant to this prospectus.

The selling stockholders and any broker-dealers or agents that participate with the selling stockholders in sales of the shares of common stock may be deemed to be "underwriters" within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares of common stock purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act.

In order to comply with certain states' securities laws, if applicable, the shares of common stock will be sold in such jurisdictions only through registered or licensed brokers or dealers. In addition, in certain states the common stock may not be sold unless the common stock has been registered or qualified for sale in such state or an exemption from registration or qualification is available and is satisfied.

We have advised the selling stockholders that the anti-manipulation provisions of Regulation M promulgated under the Securities Exchange Act of 1934 may apply to their sales of our shares offered by this prospectus.

Item 15. Indemnification of Directors and Officers.

The Company's Restated Articles of Incorporation provide that a director or officer of the Company shall not be personally liable to the Company or its stockholders for damages for any breach of fiduciary duty as a director or officer, except for liability for (i) acts or omissions which involve intentional misconduct, fraud or a knowing violation of law, or (ii) the payment of distributions in violation of Nevada Revised Statutes Section 78.300. In addition, Nevada Revised Statutes Section 78.751 and Article III, Section 13 of the Company's Second Amended and Restated Bylaws, under certain circumstances, provide for the indemnification of the Company's officers, directors, employees and agents against liabilities they may incur in such capacities. A summary of the circumstances in which such indemnification is provided for is contained herein, but that description is qualified in its entirety by reference to Article III, Section 13 of the Company's Second Amended and Restated Bylaws.

In general, any officer, director, employee or agent shall be indemnified against expenses including attorneys' fees, fines, settlements or judgments which were actually and reasonably incurred in connection with a legal proceeding, other than one brought by or on the behalf of the Company, to which he was a party as a result of such relationship, if he acted in good faith, and in the manner he believed to be in or not opposed to the Company's best interest and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. If the action or suit is brought by or on behalf of the Company, the person to be indemnified must have acted in good faith and in a manner he reasonably believed to be in or not opposed to the Company's best interest. No indemnification will be made in respect of any claim, issue or matter as to which such person shall have been adjudged by a court of competent jurisdiction, after exhaustion of all appeals therefrom, to be liable to the Company or for amounts paid in settlement to the Company, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction, determines upon application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnity for such expenses which such court shall deem proper.

Any indemnification under the previous paragraphs, unless ordered by a court or advanced as provided in the succeeding paragraph, must be made by the Company only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances. The determination must be made (i) by the stockholders, (ii) by the Board of Directors by a majority vote of a quorum consisting of directors who were not parties to the act, suit or proceeding, (iii) if a majority vote of a quorum of directors who were not parties to the act, suit or proceeding so orders, by independent legal counsel in a written opinion or (iv) if a quorum consisting of directors who were not parties to the act, suit or proceeding cannot be obtained, by independent legal counsel in a written opinion. To the extent that a director, officer, employee or

agent of the Company has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in the previous paragraph, or in defense of any claim, issue or matter therein, he must be indemnified by the Company against expenses, including attorneys' fees, actually and reasonably incurred by him in connection with the defense.

Expenses incurred by an officer or director in defending a civil or criminal action, suit or proceeding must be paid by the Company as they are incurred and in advance of the final disposition of the action, suit or proceeding, upon receipt of an undertaking by or on behalf of the director or officer to repay the amount if it is ultimately determined by a court of competent jurisdiction that he is not entitled to be indemnified by the Company as authorized by the Second Amended and Restated Bylaws. Such expenses incurred by other employees and agents may be so paid upon such terms and conditions, if any, as the Board of Directors deems appropriate.

The indemnification and advancement of expenses authorized in or ordered by a court as provided in the foregoing paragraphs, (i) does not exclude any other rights to which a person seeking indemnification or advancement of expenses may be entitled under the Articles of Incorporation or any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, for either an action in his official capacity or an action in another capacity while holding his office, except that indemnification, unless ordered by a court as described in the third preceding paragraph or for advancement of expenses made as described in the next preceding paragraph, may not be made to or on behalf of any director or officer if a final adjudication establishes that his acts or omissions involved intentional misconduct, fraud or a knowing violation of the law and was material to the cause of action; and (ii) continues for a person who has ceased to be a director, officer, employee or agent and inures to the benefit of the heirs, executors and administrators of such a person. If a claim for indemnification or payment of expenses under Section 13 of the Second Amended and Restated Bylaws is not paid in full within ninety (90) days after a written claim therefor has been received by the Company, the claimant may file suit to recover the unpaid amount of such claim and, if successful in whole or in part, shall be entitled to be paid the expenses of prosecuting such claim. In any such action, the Company shall have the burden of proving that the claimant was not entitled to the requested indemnification or payment of expenses under applicable law.

The Board of Directors may authorize, by a vote of a majority of a quorum of the Board of Directors, the Company to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the Company, or is or was serving at the request of the Company as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against him and incurred by him in any such capacity, or arising out of his status as such, whether or not the Company would have the power to indemnify him against such liability under provisions of Section 13 of the Second Amended and Restated Bylaws. The Board of Directors may authorize the Company to enter into a contract with any person who is or was a director, officer, employee or agent of the Company or is or was serving at the request of the Company as a director, officer, employee or agent of another partnership, joint venture, trust or other enterprise providing for indemnification rights equivalent to or, if the Board of Directors so determines, greater than those provided for in Section 13 of the Second Amended and Restated Bylaws.

The Company has also purchased insurance for its directors and officers for certain losses arising from claims or charges made against them in their capacities as directors and officers of the Company.

(i) to include any prospectus required by Section 10(a)(3) of the Securities Act;

(ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.

(iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to the information in the registration statement.

(2) That, for purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof:

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (including each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

To the extent that indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described under the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against these liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by a director, officer or controlling person of the registrant in connection with the securities being registered, the registrant will, unless its counsel advises it that the issue has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
