RESULTS OF OPERATIONS

For an understanding of the significant factors that influenced the Company's performance during the past three fiscal years, the following Financial Review should be read in conjunction with the consolidated financial statements presented in this annual report.

RESTRUCTURING AND IMPAIRMENT CHARGES

In June 2001, the Company announced initiatives designed to further the creation of shareholder value and improve return on capital. The effects of restructuring and impairment charges on income before income taxes of \$156.8 million are summarized as follows and discussed in detail below:

(in thousands)

Income before taxes, excluding restructuring and impairment charges	\$443,848
Restructuring and impairment charges	
Cost of sales:	
Inventory rationalization	30,133
Restructuring and impairment charges:	
Writedown of assets	87,685
Accrual of lease obligations	29,576
Contract settlements/terminations	6,713
Severance and other	2,715
Total charges	156,822
Income before taxes as reported	\$287,026

As a result of a strategic planning process begun during the third quarter of 2001, the Company established a 15% after-tax return threshold for all current and future investments. All of the Company's assets, including long-lived assets and real estate projects in process, were examined to identify those not meeting the revised hurdle rate. A charge of \$5.2 million was recorded in the third quarter related to abandoned real estate projects in process identified during this review. The review was completed in the fourth quarter, resulting in additional restructuring and impairment charges of \$151.6 million.

The Company completed its evaluation of store performance and determined that 51 domestic auto parts stores were not meeting acceptable operating targets, which represents less than two percent of the chain. A reserve of \$4.3 million has been established principally for lease commitments for stores to be closed and a writedown of \$12.5 million has been recorded on the fixed assets in such stores to reduce carrying value to fair value. The effect of suspending depreciation on these assets was not material in fiscal 2001. Additionally, a reserve of \$2.1 million was established for estimated inventory losses expected in closed stores. These stores are scheduled to be closed during fiscal 2002. The Company also evaluated all real estate projects in process and excess properties. These assets have been written down to the lower of carrying value or fair value less cost to sell, resulting in charges of \$21.0 million for asset writedowns and \$18.3 million for net lease obligations. The Company is actively marketing the assets held for sale through the use of internal resources and outside agents. Management intends to dispose of all assets held for sale within the next 12 months.

Additional impairment charges of \$25.0 million were taken related primarily to fixed assets associated with the closure of a supply depot in Memphis, Tennessee, abandoned or discontinued technology-related assets and assets abandoned due to reorganization of departments within the Store Support Center.

The Company also established a reserve of \$7.0 million principally for lease commitments associated with the closure of the supply depot and for the office building recently leased by the Company's ALLDATA subsidiary that will not be occupied.

The Company has made a decision to sell TruckPro, its heavy-duty truck parts subsidiary. The Company has engaged an investment banking firm to assist in identifying a buyer for TruckPro and to facilitate the transaction. Based on preliminary offers received, the Company has recorded asset writedowns and contractual obligations aggregating \$29.9 million. The Company expects to enter into a definitive agreement to sell TruckPro before the end of calendar year 2001.

The Company has implemented changes in its marketing and merchandising strategies. The new strategies include reducing quantities of product on hand in excess of anticipated needs and decisions to discontinue certain merchandise. This has resulted in an inventory rationalization charge of \$28.0 million. Discontinued inventory will be recalled and disposed of during the first quarter of fiscal 2002.

After considering the effect of income taxes, the impact of these restructuring and impairment charges on net earnings was \$95.8 million. The remaining Results of Operations discussion excludes the restructuring and impairment charges discussed above because the effects of these charges are not comparable on a year-over-year basis.

FISCAL 2001 COMPARED TO FISCAL 2000

Net sales for fiscal 2001 increased by \$335.5 million or 7.5% over net sales for fiscal 2000. Same store sales, or sales for domestic auto parts stores opened at least one year, increased 4%. As of August 25, 2001, the Company had 3,019 domestic auto parts stores in operation compared with 2,915 at August 26, 2000.

Gross profit for fiscal 2001, excluding nonrecurring charges, was \$2.0 billion, or 42.4% of net sales, compared with \$1.9 billion, or 41.9% of net sales, for fiscal 2000. The increase in the gross profit percentage was primarily due to a shift in sales mix to higher gross margin products in the current year and higher warranty expense in the prior year.

Operating, selling, general and administrative expenses for fiscal 2001 increased by \$130.6 million over such expenses for fiscal 2000 and increased as a percentage of net sales from 30.5% to 31.1%. The increase in the expense ratio was primarily due to an increase in insurance, expenses related to strategic initiatives not included in the restructuring and impairment charges and higher levels of payroll primarily in the first half of the year.

Net interest expense for fiscal 2001 was \$100.7 million compared with \$76.8 million for fiscal 2000. The increase in interest expense was due to higher levels of borrowings.

AutoZone's effective income tax rate was 38.8% of pre-tax income for fiscal 2001 and 38.5% for fiscal 2000.

FISCAL 2000 COMPARED TO FISCAL 1999

Net sales for fiscal 2000 increased by \$366.3 million or 8.9% over net sales for fiscal 1999. Same store sales, or sales for domestic auto parts stores opened at least one year, increased 5%. As of August 26, 2000, the Company had 2,915 domestic auto parts stores in operation compared with 2,711 at August 28, 1999.

Gross profit for fiscal 2000 was \$1.9 billion, or 41.9% of net sales, compared with \$1.7 billion, or 42.1% of net sales, for fiscal 1999. The decrease in gross profit percentage was primarily due to an increase in warranty expense.

Operating, selling, general and administrative expenses for fiscal 2000 increased by \$70.0 million over such expenses for fiscal 1999 and decreased as a percentage of net sales from 31.6% to 30.5%. The decrease in the expense ratio was primarily due to leverage of payroll and occupancy costs in acquired stores coupled with the absence of acquisition related remodeling and remerchandising activities in fiscal 2000.

Net interest expense for fiscal 2000 was \$76.8 million compared with \$45.3 million for fiscal 1999. The increase in interest expense was due to higher levels of borrowings as a result of stock repurchases and higher interest rates.

AutoZone's effective income tax rate was 38.5% of pre-tax income for fiscal 2000 and 36.9% for fiscal 1999. The fiscal 1999 effective tax rate reflects the utilization of acquired company net operating loss carryforwards.

FINANCIAL MARKET RISK

The Company is exposed to market risk from changes in foreign exchange and interest rates. To minimize such risks, the Company may periodically use various financial instruments. All hedging transactions are authorized and executed pursuant to policies and procedures. The Company does not buy or sell financial instruments for trading purposes.

On August 27, 2000, the Company adopted Statements of Financial Accounting Standards Nos. 133, 137 and 138 (collectively "SFAS 133") pertaining to the accounting for derivatives and hedging activities. SFAS 133 requires the Company to recognize all derivative instruments in the balance sheet at fair value. The adoption of SFAS 133 impacts the accounting for the Company's interest rate hedging program. The Company reduces its exposure to increases in interest rates by entering into interest rate swap contracts. All of the Company's interest rate swaps are designated as cash flow hedges.

Upon adoption of SFAS 133, the Company recorded the fair value of the interest

rate swaps in its consolidated balance sheet. Thereafter, the Company has adjusted the carrying value of the interest rate swaps to reflect their current fair value. The related gains or losses on these swaps are deferred in stockholders' equity (as a component of comprehensive income). These deferred gains and losses are recognized in income in the period in which the related interest rate payments being hedged have been recognized in expense. However, to the extent that the change in value of an interest rate swap contract does not perfectly offset the change in the interest rate payments being hedged, that ineffective portion is immediately recognized in income.

At August 25, 2001, and August 26, 2000, the fair value of the Company's debt was estimated at \$1.21 billion and \$1.20 billion, respectively, based on the market value of the debt at those dates. Such fair value is less than the carrying value of debt at August 25, 2001, by \$17.3 million and at August 26, 2000, by \$47.1 million. The Company had \$730.4 million of variable-rate debt outstanding at August 25, 2001, and \$909.9 million at August 26, 2000. At these borrowing levels, a one percentage point increase in interest rates would have had an unfavorable impact on the Company's pre-tax earnings and cash flows of \$6.6 million in 2001 and \$8.3 million in 2000. The primary interest rate exposure on variable-rate debt is based on the London Interbank Offered Rate (LIBOR).

LIQUIDITY AND CAPITAL RESOURCES

The Company's primary capital requirements have been the funding of its continued new store expansion program, inventory requirements and, more recently, stock repurchases. The Company has opened or acquired 1,596 net new domestic auto parts stores from the beginning of fiscal 1997 to August 25, 2001. Cash flow generated from store operations provides the Company with a significant source of liquidity. Net cash provided by operating activities was \$458.9 million in fiscal 2001, \$513.0 million in fiscal 2000 and \$311.7 million in fiscal 1999.

The Company invested \$169.3 million in capital assets in fiscal 2001. In fiscal 2000, the Company invested \$249.7 million in capital assets. In fiscal 1999, the Company invested \$428.3 million in capital assets, including approximately \$108 million for real estate and real estate leases purchased from Pep Boys. In fiscal 2001, the Company opened 107 new auto parts stores in the U.S. and 8 in Mexico, replaced 16 U.S. stores and closed 3 U.S. stores. In addition, the Company operated 49 TruckPro stores. Construction commitments totaled approximately \$24 million at August 25, 2001.

The Company's new store development program requires working capital, predominantly for inventories. Historically, the Company has negotiated extended payment terms from suppliers, minimizing the working capital required by expansion. The Company believes that it will be able to continue financing much of its inventory growth through favorable payment terms from suppliers, but there can be no assurance that the Company will be successful in obtaining such terms.

The Company maintains \$1.05 billion of revolving credit facilities with a group of banks. Of the \$1.05 billion, \$400 million expires in May 2002. The remaining \$650 million expires in May 2005. The 364-day facility expiring in May 2002 includes a renewal feature as well as an option to extend the maturity date of then-outstanding debt by one year. The credit facilities exist largely to support commercial paper borrowings and other short-term unsecured bank loans. Outstanding commercial paper and short-term unsecured bank loans at August 25, 2001, of \$400.4 million are classified as long-term as the Company has the ability and intention to refinance them on a long-term basis. The rate of interest payable under the credit facilities is a function of LIBOR, the lending bank's base rate (as defined in the agreement) or a competitive bid rate at the option of the Company. The Company has agreed to observe certain covenants under the terms of its credit agreements, including limitations on total indebtedness, restrictions on liens and minimum fixed charge coverage.

During fiscal year 2001, the Company entered into two unsecured bank term loans totaling \$315 million with a group of banks. Of the \$315 million, \$115 million matures in December 2003 and \$200 million matures in May 2003. The rate of interest payable is a function of LIBOR or the bank's base rate (as defined in the agreement) at the option of the Company.

In May 2001, the Company issued \$150 million of 7.99% Senior Notes due April 2006, in a private debt placement. The Senior Notes contain certain covenants limiting total indebtedness and liens. Interest is payable semi-annually.

Subsequent to year-end, in September 2001, the Company announced Board approval to repurchase up to \$250 million of common stock in the open market. This is in addition to the \$1.45 billion previously authorized as of August 25, 2001. From January 1998 to August 25, 2001, the Company had repurchased approximately \$1.2 billion of common stock. The impact of the stock repurchase program in fiscal 2001 was an increase in earnings per share of \$0.05. Subsequent to year-end, the Company repurchased two million shares in settlement of certain equity instrument contracts at an average cost of \$28.61 per share.

The Company anticipates that it will rely primarily on internally-generated funds to support a majority of its capital expenditures, working capital requirements and stock repurchases. The balance will be funded through borrowings. The Company anticipates that it will be able to obtain such financing in view of its credit rating and favorable experiences in the debt market in the past.

INFLATION

The Company does not believe its operations have been materially affected by inflation. The Company has been successful, in many cases, in mitigating the effects of merchandise cost increases principally through economies of scale resulting from increased volumes of purchases, selective forward buying and the use of alternative suppliers.

SEASONALITY AND QUARTERLY PERIODS

The Company's business is somewhat seasonal in nature, with the highest sales occurring in the summer months of June through August, in which average weekly per store sales historically have been about 15% to 25% higher than in the slower months of December through February.

Each of the first three quarters of AutoZone's fiscal year consists of twelve weeks and the fourth quarter consists of sixteen weeks. Because the fourth quarter contains the seasonally high sales volume and consists of sixteen weeks, compared to twelve weeks for each of the first three quarters, the Company's fourth quarter represents a disproportionate share of the annual net sales and net income. The fourth quarter of fiscal 2001, excluding nonrecurring charges, represented 34.1% of annual net sales and 43.9% of net income; the fourth quarter of fiscal 2000 represented 33.3% of annual net sales and 39.3% of net income. Fiscal year 2002 will consist of 53 weeks, with the fiscal fourth quarter having 17 weeks.

RECENT ACCOUNTING PRONOUNCEMENTS

In June 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" (SFAS 142). Under SFAS 142, goodwill amortization ceases when the new standard is adopted. The new rule also requires an initial goodwill impairment assessment in the year of adoption and annual impairment tests thereafter. The Company is permitted and has elected to adopt this Statement effective August 26, 2001. Application of the nonamortization provisions of the Statement is expected to result in an increase in income before income taxes of \$8.6 million per year. No impairment loss is expected from the initial goodwill impairment test.

FORWARD-LOOKING STATEMENTS

Certain statements contained in the Financial Review and elsewhere in this annual report are forward-looking statements. These statements discuss, among other things, expected growth, domestic and international development and expansion strategy, business strategies and future performance. These forward-looking statements are subject to risks, uncertainties and assumptions, including without limitation, competition, product demand, domestic and international economies, the ability to hire and retain qualified employees, consumer debt levels, inflation, war and the prospect of war, including terrorist activity, and availability of commercial transportation. Actual results may materially differ from anticipated results. For more information, please see the Risk Factors section of the Company's most recent Form 10-K as filed with the Securities and Exchange Commission.

<< NOTES TO CONSOLIDATED
FINANCIAL STATEMENTS

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

Business: The Company is principally a retailer of light vehicle parts, supplies and accessories. At the end of fiscal 2001, the Company operated 3,019 domestic auto parts stores in 42 states and the District of Columbia and 21 auto parts stores in Mexico. In addition, the Company sells heavy duty truck parts and accessories through its 49 TruckPro stores in 15 states, light vehicle diagnostic and repair software through ALLDATA and diagnostic and repair information through alldatadiy.com.

Fiscal Year: The Company's fiscal year consists of 52 or 53 weeks ending on the last Saturday in August.

Basis of Presentation: The consolidated financial statements include the accounts of AutoZone, Inc. and its wholly owned subsidiaries (the Company). All significant intercompany transactions and balances have been eliminated in consolidation.

Merchandise Inventories: Inventories are stated at the lower of cost or market using the last-in, first-out (LIFO) method.

Property and Equipment: Property and equipment is stated at cost. Depreciation is computed principally by the straight-line method over the following estimated useful lives: buildings and improvements, 5 to 50 years; equipment, 3 to 10 years; and leasehold improvements and interests, 5 to 15 years. Leasehold improvements and interests are amortized over the terms of the leases.

Intangible Assets: The cost in excess of fair value of net assets of businesses acquired is recorded as goodwill and is amortized on a straight-line basis over 40 years. The Company continually evaluates the carrying value of goodwill. Any impairments would be recognized when the expected future undiscounted operating cash flows derived from such goodwill is less than its carrying value.

Preopening Expenses: Preopening expenses, which consist primarily of payroll and occupancy costs, are expensed as incurred.

Advertising Costs: The Company expenses advertising costs as incurred. Advertising expense, net of vendor rebates, was approximately \$20.7 million in fiscal 2001, \$14.4 million in fiscal 2000 and \$21.9 million in fiscal 1999.

Warranty Costs: The Company provides the consumer with a warranty on certain products. Estimated warranty obligations are provided at the time of sale of the product.

Financial Instruments: The Company has certain financial instruments which include cash, accounts receivable and accounts payable. The carrying amounts of these financial instruments approximate fair value because of their short maturities.

Income Taxes: The Company accounts for income taxes under the liability method. Deferred tax assets and liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse.

Cash Equivalents: Cash equivalents consist of investments with maturities of 90 days or less at the date of purchase.

Use of Estimates: Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent liabilities to prepare these financial statements in conformity with accounting principles generally accepted in the United States. Actual results could differ from those estimates.

Earnings Per Share: Basic earnings per share is based on the weighted average outstanding common shares. Diluted earnings per share is based on the weighted average outstanding shares adjusted for the effect of common stock equivalents.

Revenue Recognition: The Company recognizes sales revenue at the time the sale is made.

Impairment of Long-Lived Assets: The Company complies with Statement of Financial Accounting Standards (SFAS) No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of." This statement requires that long-lived assets and certain identifiable intangibles to be held and used by an entity be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Also, in general, long-lived assets and certain identifiable intangibles to be disposed of are reported at the lower of carrying amount or fair value less cost to sell.

Derivative Instruments and Hedging Activities: On August 27, 2000, the Company adopted Statements of Financial Accounting Standards Nos. 133, 137 and 138 (collectively "SFAS 133") pertaining to the accounting for derivatives and hedging activities. SFAS 133 requires the Company to recognize all derivative instruments in the balance sheet at fair value. The adoption of SFAS 133 impacts the accounting for the Company's interest rate hedging program. The Company reduces its exposure to increases in interest rates by entering into interest rate swap contracts. All of the Company's interest rate swaps are designated as cash flow hedges.

Upon adoption of SFAS 133, the Company recorded the fair value of the interest

rate swaps in its consolidated balance sheet. Thereafter, the Company has adjusted the carrying value of the interest rate swaps to reflect their current fair value. The related gains or losses on these swaps are deferred in stockholders' equity (as a component of comprehensive income). These deferred gains and losses are recognized in income in the period in which the related interest rate payments being hedged have been recognized in expense. However, to the extent that the change in value of an interest rate swap contract does not perfectly offset the change in the interest rate payments being hedged, that ineffective portion is immediately recognized in income.

Recently Issued Accounting Standards: In June 2001, the Financial Accounting Standards Board issued SFAS No. 142, "Goodwill and Other Intangible Assets." Under SFAS 142, goodwill amortization ceases when the new standard is adopted. The new rules also require an initial goodwill impairment assessment in the year of adoption and annual impairment tests thereafter. The Company is permitted and has elected to adopt this Statement effective August 26, 2001, the first day of fiscal 2002. Application of the non-amortization provisions of SFAS No. 142 is expected to result in an increase in net income of \$5.3 million (\$0.05 per share) per year. During fiscal 2002, the Company will perform the first of the required impairment tests of goodwill. No impairment loss is expected from the initial goodwill impairment test.

Reclassifications: Certain prior year amounts have been reclassified to conform with the fiscal 2001 presentation.

NOTE B - RESTRUCTURING AND IMPAIRMENT CHARGES

As a result of a strategic planning process begun during the third quarter of 2001, the Company established a 15% after-tax return threshold for all current and future investments. All of the Company's assets, including long-lived assets and real estate projects in process, were examined to identify those not meeting the revised hurdle rate. A total charge of \$156.8 million was recorded during fiscal 2001 for the following (in thousands):

Writedown of assets	\$ 87,685
Inventory rationalization	30,133
Accrual of lease obligations	29,576
Contract settlements/terminations	6,713
Severance and other	2,715

	\$ 156,822
	=====

The Company evaluated store performance and determined that 51 domestic auto parts stores were not meeting acceptable operating targets, which represents less than two percent of the chain. A reserve of \$4.3 million has been established principally for lease commitments for stores to be closed and a writedown of \$12.5 million has been recorded on the fixed assets in such stores to reduce carrying value to fair value. The effect of suspending depreciation on these assets was not significant in fiscal 2001. Additionally, a reserve of \$2.1 million was established for estimated inventory losses expected in closed stores, which is reflected in cost of sales. These stores are scheduled to be closed during fiscal 2002. The Company also evaluated all real estate projects in process and excess properties. These assets have been written down to the lower of carrying value or fair value less cost to sell, resulting in charges of \$21.0 million for asset writedowns and \$18.3 million for net lease obligations. The Company is actively marketing the assets held for sale through the use of internal resources and outside agents. Management intends to dispose of all assets held for sale within the next 12 months.

Additional impairment charges of \$25.0 million were taken related primarily to fixed assets associated with the closure of a supply depot in Memphis, Tennessee, abandoned or discontinued technology-related assets and assets abandoned due to reorganization of departments within the Store Support Center. The Company also established a reserve of \$7.0 million principally for lease commitments associated with the closure of the supply depot and for the office building recently leased by the Company's ALLDATA subsidiary that will not be occupied.

The Company has made a decision to sell TruckPro, its heavy-duty truck parts subsidiary. The Company has engaged an investment banking firm to assist in identifying a buyer for TruckPro and to facilitate the transaction. Based on preliminary offers received, the Company has recorded asset writedowns and contractual obligations aggregating \$29.9 million. The Company expects to enter into a definitive agreement to sell TruckPro before the end of calendar year 2001.

The Company has implemented changes in its marketing and merchandising strategies. The new strategies include reducing quantities of product on hand in excess of anticipated needs and decisions to discontinue certain merchandise. This has resulted in an inventory rationalization charge of \$28.0 million. This charge is reflected in cost of sales. Discontinued inventory will be recalled and disposed of during the first quarter of fiscal 2002.

NOTE C - ACCRUED EXPENSES

Accrued expenses consist of the following:

NOTE D - INCOME TAXES

At August 25, 2001, the Company had federal tax net operating loss carryforwards (NOLs) of approximately \$35.6 million that expire in years 2007 through 2017. These carryforwards resulted from the Company's acquisition of ALLDATA Corporation during fiscal 1996, and Chief Auto Parts Inc. and ADAP, Inc. (which had been doing business as "Auto Palace") in fiscal 1998. The use of the federal tax NOLs is limited to future taxable earnings of these companies and is subject to annual limitations. A valuation allowance of \$8.7 million in fiscal 2001 and \$9.3 million in fiscal 2000 relates to these carryforwards. In addition, the Company has state tax NOLs that expire in years 2002 through 2020. These state tax NOLs also resulted from the Company's acquisition of ALLDATA Corporation, Chief Auto Parts Inc. and ADAP, Inc. The use of the NOLs is limited to future taxable earnings of these companies and is subject to annual limitations. A valuation allowance of \$6.1 million in fiscal 2001 relates to these carryforwards.

The provision for income tax expense consists of the following:

NOTE E - FINANCING ARRANGEMENTS

The Company's long-term debt as of August 25, 2001, and August 26, 2000, consists of the following:

(in thousands)	August 25, 2001	August 26, 2000
-----	----	----
6% Notes due November 2003	\$ 150,000	\$ 150,000

Bank term loan due May 2003, interest rate of 4.69%	200,000	
Commercial paper, weighted average interest rate of 3.9% at August 25, 2001, and 6.8% at August 26, 2000	385,447	767,300
Unsecured bank loans	15,000	120,000
Other	19,955	22,637
	-----	-----
	\$1,225,402	\$1,249,937
	=====	=====

The Company maintains \$1.05 billion of revolving credit facilities with a group of banks. Of the \$1.05 billion, \$400 million expires in May 2002. The remaining \$650 million expires in May 2005. The 364-day facility expiring in May 2002 includes a renewal feature as well as an option to extend the maturity date of the then-outstanding debt by one year. The credit facilities exist largely to support commercial paper borrowings and other short-term unsecured bank loans. Outstanding commercial paper and short-term unsecured bank loans at August 25, 2001, of \$400.4 million are classified as long-term as the Company has the ability and intention to refinance them on a long-term basis. The rate of interest payable under the credit facilities is a function of the London Interbank Offered Rate (LIBOR), the lending bank's base rate (as defined in the agreement) or a competitive bid rate at the option of the Company. The Company has agreed to observe certain covenants under the terms of its credit agreements, including limitations on total indebtedness, restrictions on liens and minimum fixed charge coverage.

During fiscal 2001, the Company entered into two unsecured bank term loans totaling \$315 million with a group of banks. Of the \$315 million, \$115 million matures in December 2003 and \$200 million matures in May 2003. The rate of interest payable is a function of LIBOR or the bank's base rate (as defined in the agreement) at the option of the Company.

In May 2001, the Company issued \$150 million of 7.99% Senior Notes due April 2006, in a private debt placement. The Senior Notes contain covenants limiting total indebtedness and liens. Interest is payable semi-annually.

All of the Company's debt is unsecured, except for \$15 million, which is collateralized by property. Maturities of long-term debt are \$200 million for fiscal 2003, \$265 million for fiscal 2004, \$420.4 million for fiscal 2005, \$150 million for fiscal 2006 and \$190 million thereafter.

Interest costs of \$1.4 million in fiscal 2001, \$2.8 million in fiscal 2000 and \$2.8 million in fiscal 1999 were capitalized.

The estimated fair value of the 6.5% Debentures and the 6% Notes, which are both publicly traded, was approximately \$174.6 million and \$148.1 million, respectively, based on the estimated market values at August 25, 2001. The estimated fair value of the 6.5% Debentures and the 6% Notes was approximately \$156.7 million and \$136.2 million, respectively, at August 26, 2000. The estimated fair values of all other long-term borrowings approximate their carrying values primarily because they are short-term or have variable interest rates.

NOTE F - STOCK REPURCHASE PROGRAM

As of August 25, 2001, the Board of Directors had authorized the Company to repurchase up to \$1.45 billion of common stock in the open market. In fiscal 2001, the Company repurchased 14.3 million shares of its common stock at an aggregate cost of \$366.1 million. Since fiscal 1998, the Company has repurchased a total of 47.2 million shares at an aggregate cost of \$1.2 billion. At times, the Company utilizes equity instrument contracts to facilitate its repurchase of common stock. At August 25, 2001, the Company held equity instrument contracts that relate to the purchase of approximately 3.9 million shares of common stock at an average cost of \$33.67 per share.

Subsequent to year-end, the Board authorized the repurchase of an additional \$250 million of the Company's common stock in the open market. Additionally in fiscal 2002, the Company purchased two million shares in settlement of certain equity instrument contracts outstanding at August 25, 2001, at an average cost of \$28.61 per share.

NOTE G - EMPLOYEE STOCK PLANS

The Company has granted options to purchase common stock to certain employees

and directors under various plans at prices equal to the market value of the stock on the dates the options were granted. Options are generally exercisable in a three to seven year period, and generally expire after ten years. A summary of outstanding stock options is as follows:

Options to purchase 2.9 million shares at August 25, 2001, 3.5 million shares at August 26, 2000, and 2.4 million shares at August 28, 1999, were exercisable. Shares reserved for future grants were 5.2 million at August 25, 2001.

Pro forma information is required by SFAS 123, "Accounting for Stock-Based Compensation." In accordance with the provisions of SFAS 123, the Company applies APB Opinion 25 and related interpretations in accounting for its stock option plans and, accordingly, no compensation expense for stock options has been recognized. If the Company had elected to recognize compensation cost based on the fair value of the options granted at the grant date as prescribed in SFAS 123, the Company's net income and earnings per share would have been reduced to the pro forma amounts indicated below. The effects of applying SFAS 123 and the results obtained through the use of the Black-Scholes option pricing model in this pro forma disclosure are not necessarily indicative of future amounts. SFAS 123 does not apply to awards prior to fiscal 1996.

As reported	\$ 1.54	\$ 2.00	\$ 1.63
Pro forma	\$ 1.48	\$ 1.93	\$ 1.57

The weighted average fair value of the stock options granted during fiscal 2001 was \$10.19, during fiscal 2000 was \$11.92 and during fiscal 1999 was \$12.74. The fair value of each option granted is estimated on the date of the grant using the Black-Scholes option pricing model with the following weighted average assumptions for grants in 2001, 2000 and 1999: expected price volatility of 0.34 to 0.37; risk-free interest rates ranging from 3.75% to 6.18%; and expected lives between 4.83 and 8.83 years.

Stock options that could potentially dilute basic earnings per share in the future, that were not included in the fully diluted computation because they would have been antidilutive, were 7.5 million at August 26, 2000, and 3.6

million at August 28, 1999.

The Company also has an employee stock purchase plan under which all eligible employees may purchase common stock at 85% of fair market value (determined quarterly) through payroll deductions. In fiscal 2000, maximum permitted annual purchases were increased from \$4,000 to \$15,000 per employee or 10% of compensation, whichever is less. Under the plan, 0.2 million shares were sold in fiscal 2001, and 0.3 million shares were sold in each of fiscal 1999 and 2000. The Company repurchased 0.2 million shares in fiscal years 2001, 2000 and 1999, respectively, for sale under the plan. A total of 0.8 million shares of common stock is reserved for future issuance under this plan.

Under the Second Amended and Restated Directors Stock Option Plan each non-employee director will receive an option to purchase 1,500 shares of common stock on January 1 of each year. In addition, as long as the non-employee director owns common stock valued at least equal to five times the value of the annual fee paid to such director, that director will receive an additional option to purchase 1,500 shares as of January 1 of each year. New directors receive options to purchase 3,000 shares plus a grant of an option to purchase a number of shares equal to the annual option grant, prorated for the time in service for the year.

Under the Second Amended and Restated Directors Compensation Plan a director may receive no more than one-half of the annual and meeting fees immediately in cash, and the remainder of the fees must be taken in either common stock or the fees deferred in units with value equivalent to the value of share of common stock as of the grant date ("stock appreciation rights").

NOTE H - PENSION AND SAVINGS PLAN

Substantially all full-time employees are covered by a defined benefit pension plan. The benefits are based on years of service and the employee's highest consecutive five-year average compensation. In fiscal 2000, the Company established a supplemental defined benefit pension plan for highly compensated employees.

The Company makes annual contributions in amounts at least equal to the minimum funding requirements of the Employee Retirement Income Security Act of 1974. The following table sets forth the plan's funded status and amounts recognized in the Company's financial statements:

(in thousands)	August 25, 2001	August 26, 2000

Recognized net actuarial losses		540	451
	-----	-----	-----
	\$ 8,596	\$ 8,619	\$ 6,593
	=====	=====	=====

The actuarial present value of the projected benefit obligation was determined using weighted average discount rates of 7.5% at August 25, 2001, 8% at August 26, 2000, and 7% at August 28, 1999. The assumed increases in future

compensation levels were generally 5-10% based on age in fiscal 2001, 2000 and 1999. The expected long-term rate of return on plan assets was 9.5% at August 25, 2001, August 26, 2000, and August 28, 1999. Prior service cost is amortized over the estimated average remaining service lives of the plan participants, and the unrecognized actuarial gain or loss is amortized over five years.

The Company has also established a defined contribution plan ("401(k) plan") pursuant to Section 401(k) of the Internal Revenue Code. The 401(k) plan covers substantially all employees that meet the plan's service requirements. The Company makes matching contributions, on an annual basis, up to a specified percentage of employees' contributions as approved by the Board of Directors.

NOTE I - LEASES

A portion of the Company's retail stores, distribution centers and certain equipment are leased. Most of these leases include renewal options and some include options to purchase and provisions for percentage rent based on sales. In addition, some of the leases contain guaranteed residual values.

Rental expense was \$100.4 million for fiscal 2001, \$95.7 million for fiscal 2000 and \$96.2 million for fiscal 1999. Percentage rentals were insignificant.

Minimum annual rental commitments under non-cancelable operating leases are as follows at the end of fiscal 2001 (in thousands):

Year	Amount
----	-----
2002	\$ 117,436
2003	107,838
2004	90,370
2005	71,542
2006	58,883
Thereafter	236,199

	\$ 682,268

NOTE J - COMMITMENTS AND CONTINGENCIES

Construction commitments, primarily for new stores, totaled approximately \$24 million at August 25, 2001.

The Company is a defendant in a lawsuit entitled "Coalition for a Level Playing Field, L.L.C., et. al., v. AutoZone, Inc., et. al.," filed in the U.S. District Court for the Eastern District of New York in February 2000. The case was filed by over 100 plaintiffs, which are principally automotive aftermarket warehouse distributors and jobbers, against eight defendants, which are principally automotive aftermarket parts retailers. The plaintiffs claim that the defendants have knowingly received volume discounts, rebates, slotting and other allowances, fees, free inventory, sham advertising and promotional payments, a share in the manufacturers' profits, and excessive payments for services purportedly performed for the manufacturers in violation of the Robinson-Patman Act. Plaintiffs seek approximately \$1 billion in damages (including statutory trebling) and a permanent injunction prohibiting defendants from committing further violations of the Robinson-Patman Act and from opening any further stores to compete with plaintiffs as long as defendants continue to violate the Act. The Company believes this suit to be without merit and will vigorously defend against it. The Company and the other defendants filed a motion to dismiss this action in the fiscal fourth quarter. Subsequently, on October 23, 2001, the court overruled a substantial portion of the defendants' motion. While the Company is unable to predict the outcome of this case, it currently believes that the matter will not likely result in liabilities material to the Company's financial condition or results of operations.

The Company currently, and from time to time, is involved in various other legal proceedings incidental to the conduct of its business. Although the amount of liability that may result from these proceedings cannot be ascertained, the Company does not currently believe that, in the aggregate, these other matters will result in liabilities material to the Company's financial condition or results of operations.

The Company is self-insured for workers' compensation, automobile, general and product liability losses. The Company is also self-insured for health care claims for eligible active employees. The Company maintains certain levels for stop loss coverage for each self-insured plan. Self-insurance costs are accrued based upon the aggregate of the liability for reported claims and an estimated liability for claims incurred but not reported.

STOCKHOLDERS
AUTOZONE, INC.

We have audited the accompanying consolidated balance sheets of AutoZone, Inc. as of August 25, 2001 and August 26, 2000, and the related consolidated statements of income, stockholders' equity and cash flows for each of the three years in the period ended August 25, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of AutoZone, Inc. at August 25, 2001 and August 26, 2000, and the consolidated results of its operations and its cash flows for each of the three years in the period ended August 25, 2001, in conformity with accounting principles generally accepted in the United States.
