There are no agreements with any stockholders concerning the Annual Meeting. The Company formerly had an agreement with ESL Investments, Inc. and its affiliates (collectively, "ESL"), relating to ESL's appearance and voting at the meetings of the stockholders of the Company. Such agreement expired by its terms on the date upon which the AutoZone common stock owned by ESL constituted less than 25% of the then-outstanding shares of AutoZone common stock. ESL first filed an Amendment to Schedule 13D with the Securities and Exchange Commission reporting beneficial ownership of less than 25% of AutoZone common stock on November 4, 2011.

Corporate Governance Matters

Independence

How many independent directors does AutoZone have?

Our Board of Directors has determined that eight of our current ten directors are independent: William C. Crowley, Sue E. Gove, Earl G. Graves, Jr., Robert R. Grusky, Enderson Guimaraes, W. Andrew McKenna, George R. Mrkonic, Jr., and Luis P. Nieto, Jr. All of these directors meet the independence standards of our Corporate Governance Principles and the New York Stock Exchange listing standards.

How does AutoZone determine whether a director is independent?

In accordance with AutoZone's Corporate Governance Principles, a director is considered independent if the director:

- has not been employed by AutoZone within the last five years;
- has not been employed by AutoZone's independent auditor in the last five years;
- is not, and is not affiliated with a company that is, an adviser, or consultant to AutoZone or a member of AutoZone's senior management;
- is not affiliated with a significant customer or supplier of AutoZone;
- has no personal services contract with AutoZone or with any member of AutoZone's senior management;

Table of Contents

- is not affiliated with a not-for-profit entity that receives significant contributions from AutoZone;
- within the last three years, has not had any business relationship with AutoZone for which AutoZone has been or will be required to make disclosure under Rule 404(a) or (b) of Regulation S-K of the Securities and Exchange Commission as currently in effect;
- receives no compensation from AutoZone other than compensation as a director;
- is not employed by a public company at which an executive officer of AutoZone serves as a director;
- has not had any of the relationships described above with any affiliate of AutoZone; and
- is not a member of the immediate family of any person with any relationships described above.

The term “affiliate” as used above is defined as any parent or subsidiary entity included in AutoZone’s consolidated group for financial reporting purposes.

In determining whether any business or charity affiliated with one of our directors did a significant amount of business with AutoZone, our Board has established that any payments from either party to the other exceeding 1% of either party’s revenues would disqualify a director from being independent.

In determining the independence of our directors, the Board considers relationships involving directors and their immediate family members that are relevant under applicable laws and regulations, the listing standards of the New York Stock Exchange, and the standards contained in our Corporate Governance Principles (listed above). The Board relies on information from Company records and questionnaires completed annually by each director.

As part of its most recent independence determinations, the Board noted that AutoZone does not have, and did not have during fiscal 2012, significant commercial relationships with companies at which Board members served as officers or directors, or in which Board members or their immediate family members held an aggregate of 10% or more direct or indirect interest.

The Board also reviewed donations made by the Company to not-for-profit organizations with which Board members or their immediate family members were affiliated by membership or service or as directors or trustees.

Based on its review of the above matters, the Board determined that none of Messrs. Crowley, Graves, Grusky, Guimaraes, McKenna, Mrkonic, or Nieto or Ms. Gove has a material relationship with the Company and that all of them are independent within the meaning of the AutoZone Corporate Governance Principles and applicable law and listing standards. The Board also determined that Mr. Rhodes is not independent since he is an employee of the Company and Messrs. Hyde and Rhodes are not independent because they serve on the boards of not-for-profit organizations which receive more than one percent (1%) of their revenues from the Company.

Board Leadership Structure

Our Board believes that having a combined Chairman/CEO, independent members and chairs for each of our Board committees and a Lead Director currently provides the best board leadership structure for AutoZone. This structure, together with our other corporate governance practices, provides strong independent oversight of management while ensuring clear strategic alignment throughout the Company. Our Lead Director is a non-employee director who is elected by the Board. Earl G. Graves, Jr., a director since 2002, currently serves as our Lead Director.

Table of Contents

Our Lead Director:

- Chairs Board meetings when the Chairman is not present, including presiding at all executive sessions of the Board (without management present) at every regularly scheduled Board meeting;
- Works with management to determine the information and materials provided to Board members;
- Approves Board meeting agendas, schedules and other information provided to the Board;
- Consults with the Chairman on such other matters as are pertinent to the Board and the Company;
- Has the authority to call meetings of the independent directors;
- Is available for direct communication and consultation with major shareholders upon request; and
- Serves as liaison between the Chairman and the independent directors.

Board Risk Oversight

Oversight of risk management is a responsibility of the Board of Directors and is an integral part of the Board's oversight of AutoZone's business. AutoZone's management takes a variety of calculated risks in order to enhance Company performance and shareholder value. The primary responsibility for the identification, assessment and management of the various risks resides with AutoZone's management. The Board of Directors is primarily responsible for ensuring that management has established and adequately resourced processes for identifying and preparing the Company to manage risks effectively. Additionally, the Board reviews the Company's principal strategic and operating risks as part of its regular discussion and consideration of AutoZone's strategy and operating results. The Board also reviews periodically with the General Counsel legal matters that may have a material adverse impact on the Company's financial statements, the Company's compliance with laws and any material reports received from regulatory agencies.

The Audit Committee is involved in the Board's oversight of risk management. At each of its regular meetings, the Audit Committee reviews the Company's major financial exposures and the steps management has taken to identify, assess, monitor, control, remediate and report such exposures. The Audit Committee, along with management, also evaluates the effectiveness of the risk avoidance and mitigation processes in place. Such risk-related information is then summarized, reported and discussed at each quarterly Board of Directors meeting.

To assist with risk management and oversight, AutoZone has adopted the concept of enterprise risk management ("ERM") using the framework issued in 2004 by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's Vice President of Internal Audit, who reports directly to the Audit Committee, has been charged with leading the Company's ERM processes with the assistance of Company management. The Vice President of Internal Audit presents to the Audit Committee a comprehensive review of the Company's ERM processes annually. This presentation includes an overview of all significant risks that have been identified and assessed and the strategies developed by management for managing such risks. The Vice President of Internal Audit leads open discussions with the Audit Committee members to analyze the significance of the risks identified and to verify that the list is all-inclusive. Company management is also involved in these discussions to ensure that the Board gains a full understanding of the risks and the strategies that management has implemented to manage the risks.

Other Board committees also consider significant risks within their areas of responsibility. The Compensation Committee considers risk in connection with the design of AutoZone's compensation programs. The Nominating and Corporate Governance Committee oversees risks related to the Company's governance policies and practices.

Audit Committee Report

The Audit Committee of AutoZone, Inc. has reviewed and discussed AutoZone's audited financial statements for the year ended August 25, 2012, with AutoZone's management. In addition, we have discussed with Ernst & Young LLP, AutoZone's independent registered public accounting firm, the matters required to be discussed by Statement on Auditing Standards No. 61, *Communications with Audit Committees*, as amended and as adopted by the Public Company Accounting Oversight Board ("PCAOB") in Rule 3200T, the Sarbanes-Oxley Act of 2002, and the charter of the Committee.

The Committee also has received the written disclosures and the letter from Ernst & Young LLP required by the applicable requirements of the PCAOB regarding the firm's communications with the Audit Committee concerning independence, and we have discussed with Ernst & Young LLP their independence from the Company and its management. The Committee has discussed with AutoZone's management and the auditing firm such other matters and received such assurances from them as we deemed appropriate.

[Table of Contents](#)

As a result of our review and discussions, we have recommended to the Board of Directors the inclusion of AutoZone's audited financial statements in the annual report for the fiscal year ended August 25, 2012, on Form 10-K for filing with the Securities and Exchange Commission.

While the Audit Committee has the responsibilities and powers set forth in its charter, the Audit Committee does not have the duty to plan or conduct audits or to determine that AutoZone's financial statements are complete, accurate, or in accordance with generally accepted accounting principles; AutoZone's management and the independent auditor have this responsibility. Nor does the Audit Committee have the duty to assure compliance with laws and regulations and the policies of the Board of Directors.

Sue E. Gove
George R. Mrkonic, Jr.
Luis P. Nieto

The above Audit Committee Report does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this Report by reference therein.

Compensation Committee

The Compensation Committee has the authority, based on its charter and the AutoZone Corporate Governance Principles, to:

- review and approve AutoZone's compensation objectives;
- review and approve the compensation programs, plans and awards for executive officers, including recommending equity-based plans for stockholder approval;
- act as administrator as may be required by AutoZone's short- and long-term incentive plans and stock or stock-based plans; and
- review the compensation of AutoZone's non-employee directors from time to time and recommend to the full Board any changes that the Compensation Committee deems necessary.

The Compensation Committee may appoint subcommittees from time to time with such responsibilities as it may deem appropriate; however, the committee may not delegate its authority to any other persons.

AutoZone's processes and procedures for the consideration and determination of executive compensation, including the role of the Compensation Committee and compensation consultants, are described in the "Compensation Discussion and Analysis" on page 19.

Who are the members of the Compensation Committee?

Nominating and Corporate Governance Committee

What is the function of the Nominating and Corporate Governance Committee?

The Nominating and Corporate Governance Committee ensures that:

- qualified candidates are presented to the Board of Directors for election as directors;
- the Board of Directors has adopted appropriate corporate governance principles that best serve the practices and objectives of the Board of Directors; and
- AutoZone's Articles of Incorporation and Bylaws are structured to best serve the interests of the stockholders.

Who are the members of the Nominating and Corporate Governance Committee?

Director Nomination Process

What is the Nominating and Corporate Governance Committee's policy regarding consideration of director candidates recommended by stockholders? How do stockholders submit such recommendations?

The Nominating and Corporate Governance Committee's policy is to consider director candidate recommendations from stockholders if they are submitted in writing to AutoZone's Secretary in accordance with the procedure set forth in Article III, Section 1 of AutoZone's Fifth Amended and Restated Bylaws ("Bylaws"), including biographical and business experience information regarding the nominee and other information required by said Article III, Section 1. Copies of the Bylaws will be provided upon written request to AutoZone's Secretary and are also available on AutoZone's corporate website at www.autozoneinc.com.

What qualifications must a nominee have in order to be recommended by the Nominating and Corporate Governance Committee for a position on the Board?

The Board believes each individual director should possess certain personal characteristics, and that the Board as a whole should possess certain core competencies. Such personal characteristics are integrity and accountability, informed judgment, financial literacy, mature confidence, high performance standards, and passion. They should also have demonstrated the confidence to be truly independent, as well as be business savvy, have an owner orientation and have a genuine interest in AutoZone. Core competencies of the Board as a whole are accounting and finance, business judgment, management expertise, crisis response, industry

Table of Contents

knowledge, international markets, strategy and vision. These characteristics and competencies are set forth in more detail in AutoZone's Corporate Governance Principles, which are available on AutoZone's corporate website at www.autozoneinc.com.

How does the Nominating and Corporate Governance Committee identify and evaluate nominees for director?

Prior to each annual meeting of stockholders at which directors are to be elected, the Nominating and Corporate Governance Committee considers incumbent directors and other qualified individuals, if necessary, as potential director nominees. In evaluating a potential nominee, the Nominating and Corporate Governance Committee considers the personal characteristics described above, and also reviews the composition of the full Board to determine the areas of expertise and core competencies needed to enhance the function of the Board. The Nominating and Corporate Governance Committee may also consider other factors such as the size of the Board, whether a candidate is independent, how many other public company directorships a candidate holds, and the listing standards requirements of the New York Stock Exchange.

The Nominating and Corporate Governance Committee recognizes the importance of selecting directors from various backgrounds and professions in order to ensure that the Board as a whole has a variety of experiences and perspectives which contribute to a more effective decision-making process. The Board does not have a specific diversity policy, but considers diversity of race, ethnicity, gender, age, cultural background and professional experiences in evaluating candidates for Board membership.

The Nominating and Corporate Governance Committee uses a variety of methods for identifying potential nominees for director. Candidates may come to the attention of the Nominating and Corporate Governance Committee through current Board members, stockholders or other persons. The Nominating and Corporate Governance Committee may retain a search firm or other consulting firm from time to time to identify potential nominees. Mr. Guimaraes was recommended for consideration by the Committee by a third-party search firm. Nominees recommended by stockholders in accordance with the procedure described above, i.e., submitted in writing to AutoZone's Secretary, accompanied by the biographical and business experience information regarding the nominee and the other information required by Article III, Section 1 of the Bylaws, will receive the same consideration as the Nominating and Corporate Governance Committee's other potential nominees.

Narrative Accompanying Director Compensation Table

AutoZone's current director compensation program became effective January 1, 2011.

Annual Retainer Fees. Non-employee directors receive an annual retainer fee of \$200,000 (the "Annual Retainer"). The lead director and the chair of the Audit Committee each receive an additional fee of \$20,000 annually, the chairs of the Compensation Committee and the Nominating and Corporate Governance Committee each receive an additional fee of \$5,000 per year, and the non-chair members of the Audit Committee each receive an additional fee of \$5,000 per year (such fees, together with the Annual Retainer, the "Retainer"). There are no meeting fees.

Under the AutoZone, Inc. 2011 Equity Incentive Award Plan (the "2011 Equity Plan"), which replaced the 2003 Director Compensation Plan and the 2003 Director Stock Option Plan (each as defined below), a non-employee director receives the Retainer in Restricted Stock Units, which are contractual rights to receive in the future a share of AutoZone common stock. Restricted Stock Units become fully vested on the date they are issued and will become unrestricted as of the date that a non-employee director ceases to be a director of the Company (the "Payment Date"). Restricted Stock Units are paid in shares of AutoZone common stock as soon as practicable after the Payment Date, to be no later than the fifteenth day of the third month following the end of the tax year in which such Payment Date occurs, unless the director has elected to defer receipt.

The Retainer is payable in advance in equal quarterly installments on January 1, April 1, July 1, and October 1 of each year. The number of Restricted Stock Units granted each quarter is determined by dividing the amount of the Retainer by the fair market value of the shares as of the grant date.

If a non-employee director is elected to the Board after the beginning of a calendar quarter, he or she receives a prorated Retainer based on the number of days remaining in the calendar quarter in which the date of the Board election occurs.

Predecessor Plans

The AutoZone, Inc. Second Amended and Restated Director Compensation Plan and the AutoZone, Inc. Fourth Amended and Restated 1998 Director Stock Option Plan were terminated in December 2002 and were replaced by the AutoZone, Inc. First Amended and Restated 2003 Director Compensation Plan (the "2003 Director Compensation Plan") and the AutoZone, Inc. First Amended and Restated 2003 Director Stock Option

Table of Contents

Plan (the “2003 Director Stock Option Plan”). The 2003 Director Compensation Plan and the 2003 Director Stock Option Plan were terminated in December 2010 and replaced by the 2011 Equity Plan. However, grants made under those plans continue in effect under the terms of the grant made and are included in the aggregate awards outstanding shown above.

Stock Ownership Requirement

The Board has established a stock ownership requirement for non-employee directors. Within three years of joining the Board, each director must personally invest at least \$150,000 in AutoZone stock. Shares, Stock Units and Restricted Stock Units issued under the AutoZone, Inc. Second Amended and Restated Director Compensation Plan, the 2003 Director Compensation Plan and the 2011 Equity Plan count toward this requirement.

THE PROPOSALS

PROPOSAL 1 — Election of Directors

Eight directors will be elected at the Annual Meeting to serve until the annual meeting of stockholders in 2013. Pursuant to AutoZone's Fifth Amended and Restated Bylaws, in an uncontested election of directors, a nominee for director is elected to the Board if the number of votes cast for such nominee's election exceed the number of votes cast against such nominee's election. (If the number of nominees were to exceed the number of directors to be elected, i.e., a contested election, directors would be elected by a plurality of the votes cast at the Annual Meeting.) Pursuant to AutoZone's Corporate Governance Principles, incumbent directors must agree to tender their resignation if they fail to receive the required number of votes for re-election, and in such event the Board will act within 90 days following certification of the shareholder vote to determine whether to accept the director's resignation. These procedures are described in more detail in our Corporate Governance Principles, which are available on our corporate website at www.autozoneinc.com. The Board may consider any factors it deems relevant in deciding whether to accept a director's resignation. If a director's resignation offer is not accepted by the Board, that director will continue to serve until AutoZone's next annual meeting of stockholders or until his or her successor is duly elected and qualified, or until the director's earlier death, resignation, or removal.

Any director nominee who is not an incumbent director and who does not receive a majority vote in an uncontested election will not be elected as a director, and a vacancy will be left on the Board. The Board, in its sole discretion, may either fill a vacancy resulting from a director nominee not receiving a majority vote pursuant to the Bylaws or decrease the size of the Board to eliminate the vacancy.

Broker non-votes occur when shares held by a brokerage firm are not voted with respect to a proposal because the firm has not received voting instructions from the beneficial owner of the shares and the firm does not have the authority to vote the shares in its discretion. Shares abstaining from voting and shares as to which a broker non-vote occurs are considered present for purposes of determining whether a quorum exists, but are not considered votes cast or shares entitled to vote with respect to such matter. Accordingly, abstentions and broker non-votes will have no effect on the outcome of Proposal 1.

The Board of Directors recommends that the stockholders vote FOR each of these nominees. These nominees have consented to serve if elected. Should any nominee be unavailable to serve, your proxy will be

[Table of Contents](#)

voted for the substitute nominee recommended by the Board of Directors, or the Board of Directors may reduce the number of directors on the Board.

PROPOSAL 2 — Ratification of Independent Registered Public Accounting Firm

Ernst & Young LLP, our independent auditor for the past twenty-five fiscal years, has been selected by the Audit Committee to be AutoZone’s independent registered public accounting firm for the 2013 fiscal year. Representatives of Ernst & Young LLP will be present at the Annual Meeting to make a statement if they so desire and to answer any appropriate questions.

The Audit Committee recommends that you vote FOR ratification of Ernst & Young LLP as AutoZone’s independent registered public accounting firm.

For ratification, the firm must receive more votes in favor of ratification than votes cast against. Abstentions and broker non-votes will not be counted as voting either for or against the firm. However, the Audit Committee is not bound by a vote either for or against the firm. The Audit Committee will consider a vote against the firm by the stockholders in selecting our independent registered public accounting firm in the future.

During the past two fiscal years, the aggregate fees for professional services rendered by Ernst & Young LLP were as follows:

	<u>2012</u>	<u>2011</u>
Audit Fees	\$1,747,500	\$1,629,000
Audit-Related Fees	—	—
Tax Fees	79,529(1)	110,571(1)

(1) Tax fees for 2012 and 2011 were for state and local tax services.

The Audit Committee pre-approves all services performed by the independent registered public accounting firm under the terms contained in the Audit Committee charter, a copy of which can be obtained at our website at www.autozoneinc.com. The Audit Committee pre-approved 100% of the services provided by Ernst & Young LLP during the 2012 and 2011 fiscal years. The Audit Committee considers the services listed above to be compatible with maintaining Ernst & Young LLP’s independence.

PROPOSAL 3 — Advisory Vote on Executive Compensation — “Say-on-Pay”

On December 14, 2011, AutoZone’s stockholders approved, on an advisory basis, AutoZone’s recommendation that future advisory votes on executive compensation should be held every year. Consequently,

Table of Contents

and in accordance with Section 14A of the Securities Exchange Act, we are asking stockholders to approve the following advisory resolution on the compensation of our Principal Executive Officer, the Principal Financial Officer and our other three most highly paid executive officers (collectively, the “Named Executive Officers”) at the Annual Meeting:

“RESOLVED, that the compensation paid to AutoZone’s Named Executive Officers, as disclosed in this Proxy Statement pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the accompanying compensation tables and the related narrative discussion, is hereby APPROVED.”

This advisory vote, commonly known as a “say-on-pay” proposal, gives our stockholders the opportunity to endorse or not endorse our executive pay program. The Board of Directors recommends a vote “FOR” this resolution because it believes that AutoZone’s executive compensation program, described in the Compensation Discussion and Analysis, is effective in achieving the Company’s goals of rewarding financial and operating performance and the creation of stockholder value.

Our Board of Directors and Compensation Committee believe that there should be a strong relationship between pay and corporate performance, and our executive compensation program reflects this belief. While the overall level and balance of compensation elements in our compensation program are designed to ensure that AutoZone can retain key executives and, when necessary, attract qualified new executives to the organization, the emphasis of AutoZone’s compensation program is linking executive compensation to business results and intrinsic value creation, which is ultimately reflected in increases in stockholder value.

AutoZone sets challenging financial and operating goals, and a significant amount of an executive’s annual cash compensation is tied to these objectives and therefore “at risk” — payment is earned only if performance warrants it.

AutoZone’s compensation program is intended to support long-term focus on stockholder value, so it emphasizes long-term rewards. At target levels, the majority of an executive officer’s total compensation package each year is the potential value of his or her stock options, which yield value to the executive only if the stock price appreciates.

Our management stock ownership requirement effectively promotes meaningful and significant stock ownership by our Named Executive Officers and further aligns their interests with those of our stockholders.

We urge you to read the Compensation Discussion and Analysis, as well as the Summary Compensation Table and related compensation tables and narrative, appearing on pages 19 through 46, which provide detailed information on our compensation philosophy, policies and practices and the compensation of our Named Executive Officers.

Because the vote on this proposal is advisory in nature, it is not binding on AutoZone, the Board of Directors or the Compensation Committee. The vote on this proposal will, therefore, not affect any compensation already paid or awarded to any Named Executive Officer and will not overrule any decisions made by the Board of Directors or the Compensation Committee. Because we highly value the opinions of our stockholders, however, the Board of Directors and the Compensation Committee will consider the results of this advisory vote when making future executive compensation decisions.

The Board of Directors recommends that the stockholders vote FOR this proposal.

Other Matters

We do not know of any matters to be presented at the Annual Meeting other than those discussed in this Proxy Statement. If, however, other matters are properly brought before the Annual Meeting, your proxies will be able to vote those matters in their discretion.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis provides a principles-based overview of AutoZone's executive compensation program. It discusses our rationale for the types and amounts of compensation that our executive officers receive and how compensation decisions affecting these officers are made. It also discusses AutoZone's total rewards philosophy, the key principles governing our compensation program, and the objectives we seek to achieve with each element of our compensation program.

What are the Company's key compensation principles?

Pay for performance. The primary emphasis of AutoZone's compensation program is linking executive compensation to business results and intrinsic value creation, which is ultimately reflected in increases in stockholder value. Base salary levels are intended to be competitive in the U.S. marketplace for executives, but the more potentially valuable components of executive compensation are annual cash incentives, which depend on the achievement of pre-determined business goals, and to a greater extent, long-term compensation, which is based on the value of our stock.

Attract and retain talented AutoZoners. The overall level and balance of compensation elements in our compensation program are designed to ensure that AutoZone can retain key executives and, when necessary, attract qualified new executives to the organization. We believe that a company which provides quality products and services to its customers, and delivers solid financial results, will generate long-term stockholder returns, and that this is the most important component of attracting and retaining executive talent.

What are the Company's overall executive compensation objectives?

Drive high performance. AutoZone sets challenging financial and operating goals, and a significant amount of an executive's annual cash compensation is tied to these objectives and therefore "at risk" — payment is earned only if performance warrants it.

Drive long-term stockholder value. AutoZone's compensation program is intended to support long-term focus on stockholder value, so it emphasizes long-term rewards. At target levels, the majority of an executive officer's total compensation package each year is the potential value of his or her stock options.

The table below illustrates how AutoZone's compensation program weights the "at-risk" components of its Named Executive Officers' 2012 total compensation (using actual base earnings + fiscal 2012 annual cash incentive payment + the value of fiscal 2012 stock and option grants). The value of Mr. Rhodes' Performance Restricted Stock Unit grant, awarded in fiscal 2011, is included in the calculation based on one-fifth of the full value (using the stock price as of the end of fiscal 2012). Mr. Griffin was hired on June 10, 2012. The values shown below related to his base earnings (including sign-on bonus) and the annual cash incentive payment have been annualized in order to facilitate comparison. See the Summary Compensation Table on page 32 for additional details about fiscal 2012 compensation for all of the Named Executive Officers.

Executive	Base Salary	Annual Incentive	Long-Term Incentive	Total At-Risk
William C. Rhodes III	22%	29%	49%	78%
William T. Giles	22%	22%	56%	78%
Ronald B. Griffin	15%	10%	75%	85%
Harry L. Goldsmith	21%	21%	58%	79%
Larry M. Roesel	21%	17%	62%	79%

Who participates in AutoZone's executive compensation programs?

The Chief Executive Officer and the other Named Executive Officers, as well as the other senior executives comprising AutoZone's Executive Committee, participate in the compensation program outlined in this Compensation Discussion and Analysis. The Executive Committee consists of the Chief Executive Officer and officers with the title of senior vice president or executive vice president (a total of 11 executives at the end of fiscal 2012). However, many elements of the compensation program also apply to other levels of AutoZone management. The intent is to ensure that management is motivated to pursue, and is rewarded for achieving, the same financial, operating and stockholder objectives.

What are the key elements of the Company's overall executive compensation program?

The table below summarizes the key elements of AutoZone's executive compensation program and the objectives they are designed to achieve. More details on these elements follow throughout the Compensation Discussion and Analysis and this Proxy Statement, as appropriate.

Pay Element	Description	Objectives
Base salary	<ul style="list-style-type: none">•Annual fixed cash compensation.	<ul style="list-style-type: none">•Attract and retain talented executives.•Recognize differences in relative size, scope and complexity of positions as well as individual performance over the long term.

Pay Element	Description	Objectives
Stock options and other equity compensation	<ul style="list-style-type: none"> •Senior executives receive non-qualified stock options (NQSOs). •Historically, incentive stock options (ISOs) have been granted as well; however, the company anticipates that this practice will be curtailed beginning in fiscal 2013. •All stock options are granted at fair market value on the grant date (discounted options are prohibited). •AutoZone’s equity compensation plan prohibits repricing of stock options and does not include a “reload” program. •AutoZone may occasionally grant awards of performance-restricted stock units, as well as awards of restricted stock with time-based vesting. 	<ul style="list-style-type: none"> •Align long-term compensation with stockholder results. Opportunities for significant wealth accumulation by executives are tightly linked to stockholder returns. •ISOs provide an incentive to hold shares after exercise, thus increasing ownership and further reinforcing the tie to stockholder results. •Provide retention incentives to ensure business continuity, and facilitate succession planning and executive knowledge transfer.
Stock purchase plans	<ul style="list-style-type: none"> •AutoZone maintains a broad-based employee stock purchase plan (ESPP) which is qualified under Section 423 of the Internal Revenue Code. The Employee Stock Purchase Plan allows AutoZoners to make quarterly purchases of AutoZone shares at 85% of the fair market value on the first or last day of the calendar quarter, whichever is lower. The annual contribution limit under the ESPP is \$15,000. •The Company has implemented an Executive Stock Purchase Plan so that executives may continue to purchase AutoZone shares beyond the limit the IRS and the company set for the Employee Stock Purchase Plan. An executive may make purchases using up to 25% of his prior fiscal year’s eligible compensation. 	<ul style="list-style-type: none"> •Allow all AutoZoners to participate in the growth of AutoZone’s stock. •Encourage ownership, and therefore alignment of executive and stockholder interests.

Annual cash compensation. Annual cash compensation consists of base salary and annual cash incentives.

Base Salary. Salaries are determined within the context of a targeted total cash compensation level for each position. Base salary is a fixed portion of the targeted annual cash compensation, with the specific portion varying based on differences in the size, scope or complexity of the jobs as well as the tenure and individual performance level of incumbents in the positions. Points are assigned to positions using a job evaluation system developed by Hay Group, a global management and human resources consulting firm, and AutoZone maintains salary ranges based on the job evaluations originally constructed with Hay Group's help. These salary ranges are usually updated annually based on broad-based survey data; in addition to Hay Group survey data, AutoZone also subscribes to survey information from Kenexa for this purpose, as discussed below.

The survey data used to periodically adjust salary ranges is broad-based, including data submitted by hundreds of companies. Examples of the types of information contained in salary surveys include summary statistics (e.g., mean, median, 25th percentile, etc.) related to:

- base salaries
- variable compensation
- total annual cash compensation
- long-term incentive compensation
- total direct compensation

The salary surveys cover both the retail industry and compensation data on a broader, more general public company universe. Multiple salary surveys are used, so that ultimately the data represent hundreds of companies and positions and thousands of incumbents, or people holding those positions. The surveys generally list the participating companies, and for each position "matched", the number of companies and incumbents associated with the position. Subscribers cannot determine which information comes from which company.

[Table of Contents](#)

The salary ranges which apply to the Named Executive Officers, including the Principal Executive Officer, are part of the structure applicable to thousands of AutoZone's employees. AutoZone positions are each assigned to a salary grade. This is generally accomplished at the creation of a position, using the Hay job evaluation method, and jobs tend to remain in the same grade as long as there are no significant job content changes. Each grade in the current salary structure has a salary range associated with it. This range has a midpoint, to which we compare summary market salary data (generally median pay level) of the types discussed above.

Over time, as the median pay levels in the competitive market change, as evidenced by the salary survey data, AutoZone will make appropriate adjustments to salary range midpoints so that on average, these midpoints are positioned at roughly 95% of the market median value as revealed by the surveys. This positioning relative to the market allows for competitive base salary levels, while generally leaving actual average base pay slightly below the survey market level. This fits our stated philosophy of delivering competitive total rewards at or above the market median through performance-based variable compensation.

In making decisions related to compensation of the Named Executive Officers, the Compensation Committee uses the survey data and salary ranges as context in reviewing compensation levels and approving pay actions. Other elements that the Compensation Committee considers are individual performance, Company performance, individual tenure, internal equity, position tenure, and succession planning.

Annual Cash Incentive. Executive officers and certain other employees are eligible to receive annual cash incentives each fiscal year based on the Company's attainment of certain Company performance objectives set by the Compensation Committee at the beginning of the fiscal year. The annual cash incentive target for each position, expressed as a percentage of base salary, is based on both salary range and level within the organization, and therefore does not change annually. As a general rule, as an executive's level of management responsibility increases, the portion of his or her total compensation dependent on Company performance increases.

The threshold and target percentage amounts for the Named Executive Officers for fiscal 2012 are shown in the table below.

Principal Position	Percentage of Base Salary	
	Threshold	Target
Chairman, President & CEO	50%	100%
Executive Vice Presidents	37.5%	75%
All Other NEOs	30%	60%

Annual cash incentives for executive officers are paid pursuant to the AutoZone, Inc. 2010 Executive Incentive Compensation Plan ("EICP"), our performance-based short-term incentive plan. Pursuant to the plan, the Compensation Committee establishes incentive objectives at the beginning of each fiscal year. For more information about the EICP, see Discussion of Plan-Based Awards Table on page 35.

The actual incentive amount paid depends on Company performance relative to the target objectives. A minimum pre-established goal must be met in order for any incentive award to be paid, and the incentive award as a percentage of annual salary will increase as the Company achieves higher levels of performance.

The Compensation Committee may in its sole discretion reduce the incentive awards paid to Named Executive Officers. Under the EICP, the Compensation Committee may not exercise discretion in granting awards in cases where no awards are indicated, nor may the Compensation Committee increase any calculated awards. Any such "positive" discretionary changes, were they to occur, would be paid outside of the EICP and reported under the appropriate Bonus column in the Summary Compensation Table; however, the Compensation Committee has not historically exercised this discretion.

The Compensation Committee, as described in the EICP, may (but is not required to) disregard the effect of one-time charges and extraordinary events such as asset write-downs, litigation judgments or settlements,

[Table of Contents](#)

changes in tax laws, accounting principles or other laws or provisions affecting reported results, accruals for reorganization or restructuring, and any other extraordinary non-recurring items, acquisitions or divestitures and any foreign exchange gains or losses on the calculation of performance.

The incentive objectives for fiscal 2012 were set in a September 2011 Compensation Committee meeting, and were based on the achievement of specified levels of earnings before interest and taxes (“EBIT”) and return on invested capital (“ROIC”), as were the incentive objectives for fiscal 2013, set during a Compensation Committee meeting held in September 2012. The total incentive award is determined based on the impact of EBIT and ROIC on AutoZone’s economic profit for the year, rather than by a simple allocation of a portion of the award to achievement of the EBIT target and a portion to achievement of the ROIC target. EBIT and ROIC are key inputs to the calculation of economic profit (sometimes referred to as “economic value added”), and have been determined by our Compensation Committee to be important factors in enhancing stockholder value. If both the EBIT and ROIC targets are achieved, the result will be a 100%, or target, payout. However, the payout cannot exceed 100% unless the EBIT target is exceeded (i.e., unless there is “excess EBIT” to fund the additional incentive payout). Additionally, when the aggregate incentive amount is calculated, if the resulting payout amount in excess of target exceeds a specified percentage of excess EBIT (currently 20%), then the incentive payout will be reduced until the total amount of the incentive payment in excess of target is within that specified limit.

The specific targets are tied to achievement of the Company’s operating plan for the fiscal year. In 2012, the target objectives were EBIT of \$1,572.5 million and ROIC of 31.1%. The 2012 incentive awards for each named executive officer were based on the following performance:

<u>(Amounts in MM\$)</u>	<u>EBIT</u>	<u>ROIC</u>
EICP Target	\$1,572.5	31.10%
Actual (as adjusted)	\$1,623.3	32.87%
Difference	\$ 50.8	177bps

Effect of Performance on Total Annual Cash Compensation. Because AutoZone emphasizes pay for performance, it is only when the Company exceeds its target objectives that an executive’s total annual cash compensation begins to climb relative to the median market level. Similarly, Company performance below target will cause an executive’s total annual cash compensation to drop below market median. As discussed below, AutoZone does not engage in strict benchmarking of compensation levels, i.e., we do not use specific data to support precise targeting of compensation, such as setting an executive’s base pay at the 50th percentile of an identified group of companies.

Stock compensation. To emphasize achievement of long-term stockholder value, AutoZone’s executives receive a significant portion of their targeted total compensation in the form of stock options. Although stock options have potential worth at the time they are granted, they only confer actual value if AutoZone’s stock price appreciates between the grant date and the exercise date. For this reason, we believe stock options are a highly effective long-term compensation vehicle to reward executives for creating stockholder value. We want our executives to realize total compensation levels well above the market norm, because when they do, such success is the result of achievement of Company financial and operating objectives that leads to growth in the per-share value of AutoZone common stock.

In order to support and facilitate stock ownership by our executive officers, a portion of their annual stock option grant has historically consisted of Incentive Stock Options (“ISOs”), which feature favorable income tax treatments for the executive as long as certain conditions are met (e.g., the executive holds the stock acquired upon exercise of an ISO for at least two years from the date of grant and one year from the date of exercise). ISOs have a maximum term of ten years and vest in equal 25% increments on the first, second, third and fourth anniversaries of the grant date. They are granted at the fair market value on the date of grant as defined in the relevant stock option plan. There is a \$100,000 limit on the aggregate grant value of ISOs that may become exercisable in any calendar year; consequently, the majority of options granted are in the form of non-qualified stock options. Although AutoZone receives an income tax deduction for an employee’s gain on non-qualified

[Table of Contents](#)

stock options, AutoZone does not receive a similar deduction of the exercise of ISOs. Therefore, AutoZone anticipates significantly curtailing the use of ISOs beginning in fiscal 2013.

AutoZone grants stock options annually. Currently, the annual grants are reviewed and approved by the Compensation Committee in the meeting (typically in late September or early October) at which it reviews prior year results, determines incentive payouts, and takes other compensation actions affecting the Named Executive Officers. The Compensation Committee has not delegated its authority to grant stock options; all grants are directly approved by the Compensation Committee. Option grant amounts for the Chief Executive Officer's direct reports and other senior executives are recommended to the Compensation Committee by the Chief Executive Officer, based on individual performance and the size and scope of the position held. AutoZone's practice is to limit the total option shares granted to its employees during the annual grant process to approximately one percent of common shares estimated to be outstanding at the end of that fiscal year. The annual grant is typically made near the beginning of the fiscal year and does not include a limited number of promotional or new hire grants that may be made during the fiscal year. The Committee reserves the right to deviate from this policy as it deems appropriate.

Newly promoted or hired officers may receive an option grant shortly after their hire or promotion. As a general rule, new hire or promotional stock options are approved and effective on the date of a regularly scheduled meeting of the Compensation Committee. On occasion, these interim grants may be approved by unanimous written consent of the Compensation Committee. The grants are recommended to the Compensation Committee by the Chief Executive Officer based on individual circumstances (e.g., what may be required in order to attract a new executive). Internal promotional grants are prorated based on the time elapsed since the officer received a regular annual grant of stock options.

Pursuant to the 2011 Equity Plan, on December 15, 2010, AutoZone's Compensation Committee authorized the grant of an award of 25,000 performance-restricted stock units ("PRSUs") to William C. Rhodes, III, AutoZone's Chairman, President and CEO. The PRSUs are earned and vest as follows:

- 100% of the PRSUs shall be earned either
 - (a) on the date on which AutoZone's stock price reaches \$461.12 or more per share for five consecutive trading days on or before October 1, 2015; or
 - (b) AutoZone achieves a Diluted Earnings Per Share equal to or greater than \$29.94 on the last day of any fiscal year between the grant date and August 29, 2015.

If one of these performance conditions is met, the PRSUs earned will vest on October 1, 2015 only if Mr. Rhodes is employed by AutoZone through October 1, 2015.

- In the event that neither of the performance conditions above is met, then 80% (20,000) of the PRSUs shall be earned if:
 - (a) AutoZone's stock price reaches \$461.12 or more per share for five consecutive trading days on or before October 1, 2016; or
 - (b) AutoZone achieves a Diluted Earnings Per Share equal to or greater than \$29.94 on the last day of any fiscal year between the grant date and August 27, 2016.

If one of these performance conditions is met, the PRSUs earned will vest on the date on which they are earned.

Assuming shares are earned and vest, the units will be delivered as shares of AutoZone common stock.

The purpose of this one-time award is to motivate continued high performance while enhancing the retention characteristics of the compensation package applicable to the Chief Executive Officer:

<u>Performance</u>	<u>Retention</u>
<ul style="list-style-type: none">•The target financial measures, diluted earnings per share and stock price, relate directly to stockholder success.•Achieving a payout under the award terms requires continued and sustained high performance.	<ul style="list-style-type: none">•The potential realizable value of the award is significant, while remaining balanced by other elements of the compensation program to mitigate against risk related to unintended consequences.•The terms of the grant require Mr. Rhodes to remain actively employed at least through October 1, 2015, even if one or both of the performance goals is reached prior to then.

For more information about our stock-based plans, [see](#) Discussion of Plan-Based Awards Table on page 35.

Stock purchase plans. AutoZone maintains the Employee Stock Purchase Plan which enables all employees to purchase AutoZone common stock at a discount, subject to IRS-determined limitations. Based on IRS rules, we limit the annual purchases in the Employee Stock Purchase Plan to no more than \$15,000, and no more than 10% of eligible compensation. To support and encourage stock ownership by our executives, AutoZone also established a non-qualified stock purchase plan. The Fifth Amended and Restated AutoZone, Inc. Executive Stock Purchase Plan (“Executive Stock Purchase Plan”) permits participants to acquire AutoZone common stock in excess of the purchase limits contained in AutoZone’s Employee Stock Purchase Plan. Because the Executive Stock Purchase Plan is not required to comply with the requirements of Section 423 of the Internal Revenue Code, it has a higher limit on the percentage of a participant’s compensation that may be used to purchase shares (25%) and places no dollar limit on the amount of a participant’s compensation that may be used to purchase shares under the plan.

The Executive Stock Purchase Plan operates in a similar manner to the tax-qualified Employee Stock Purchase Plan, in that it allows executives to contribute after-tax compensation for use in making quarterly purchases of AutoZone common stock. Options are granted under the Executive Stock Purchase Plan each calendar quarter and consist of two parts: a restricted share option and an unvested share option. Shares are purchased under the restricted share option at 100% of the closing price of AutoZone stock at the end of the calendar quarter (i.e., not at a discount), and a number of shares are issued under the unvested share option at no cost to the executive, so that the total number of shares acquired upon exercise of both options is equivalent to the number of shares that could have been purchased with the deferred funds at a price equal to 85% of the stock price at the end of the quarter. The unvested shares are subject to forfeiture if the executive does not remain with the company for one year after the grant date. After one year, the shares vest, and the executive owes taxes based on the share price on the vesting date (unless a so-called 83(b) election was made on the date of grant).

The table below can be used to compare and contrast the stock purchase plans. For more information about the Executive Stock Purchase Plan, see Discussion of Plan-Based Awards Table on page 35.

How does the Compensation Committee consider and determine executive and director compensation?

Chief Executive Officer. The Compensation Committee establishes the compensation level for the Chief Executive Officer, including base salary, annual cash incentive compensation, and stock-based awards. The Chief Executive Officer’s compensation is reviewed annually by the Compensation Committee in conjunction with a review of his individual performance by the non-management directors, taking into account all forms of compensation, including base salary, annual cash incentive, stock options and other stock-based awards, and the value of other benefits received.

Other Executive Officers. The Compensation Committee reviews and establishes base salaries for AutoZone’s executive officers other than the Chief Executive Officer based on each executive officer’s individual performance during the past fiscal year and on the recommendations of the Chief Executive Officer. The Compensation Committee approves the annual cash incentive amounts for the executive officers, which are determined by objectives established by the Compensation Committee at the beginning of each fiscal year as discussed above. The actual incentive amount paid depends on performance relative to the target objectives.

The Compensation Committee approves awards of stock options to many levels of management, including executive officers. Stock options are granted to executive officers upon initial hire or promotion, and thereafter are typically granted annually in accordance with guidelines established by the Compensation Committee as discussed above. The actual grant is determined by the Compensation Committee based on the guidelines and the performance of the individual in the position. The Compensation Committee considers the recommendations of the Chief Executive Officer. The Compensation Committee also approves awards of other stock-based compensation.

Management Stock Ownership Requirement. To further reinforce AutoZone’s objective of driving long-term stockholder results, AutoZone maintains a stock ownership requirement for all Executive Committee members (a total of 11 individuals at the end of fiscal 2012). Covered executives must attain a specified minimum level of stock ownership, based on a multiple of their base salary, within 5 years of the adoption of the requirement or the executive’s placement into a covered position. Executives who are promoted into a position with a higher multiple will have an additional 3 years to attain the required ownership level. In order to calculate whether each executive meets the ownership requirement, we total the value of each executive’s holdings of whole shares of stock and the intrinsic (or “in-the-money”) value of vested stock options, based on the fiscal

[Table of Contents](#)

year-end closing price of AutoZone stock, and compare that value to the appropriate multiple of fiscal year-end base salary.

To encourage full participation in our equity plans, all AutoZone stock acquired under those plans is included in the executive's holdings for purposes of calculating his or her ownership. This includes vested stock options and vested shares which have restrictions on sale.

Key features of the stock ownership requirement are summarized in the table below:

Ownership Requirement	<ul style="list-style-type: none">•Chief Executive Officer 5 times base salary•Executive Vice President 3 times base salary•Senior Vice President 2 times base salary
Holding Requirements	<ul style="list-style-type: none">•Individuals who have not achieved the ownership requirement within the specified period will be required to hold 50% of net after-tax shares upon exercise of any stock option, and may not sell any shares of AZO.•Guidelines will no longer apply after an executive reaches age 62, in order to facilitate appropriate financial planning as retirement approaches. The Compensation Committee may waive the guidelines for any other executive at its discretion.
Ownership Definition	<ul style="list-style-type: none">•Shares of stock directly owned;•Unvested Shares acquired via the Executive Stock Purchase Plan; and•Vested stock options acquired via the AutoZone Stock Option Plan (based on the "in-the-money" value).

Under AutoZone's insider trading policies, all transactions involving put or call options on the stock of AutoZone are prohibited at all times. Officers and directors and their respective family members may not directly or indirectly participate in transactions involving trading activities which by their aggressive or speculative nature may give rise to an appearance of impropriety.

What roles do the Chief Executive Officer and other executive officers play in the determination of executive compensation?

The Chief Executive Officer attends most meetings of the Compensation Committee and participates in the process by answering Compensation Committee questions about pay philosophy and by ensuring that the Compensation Committee's requests for information are fulfilled. He also assists the Compensation Committee in determining the compensation of the executive officers by providing recommendations and input about such matters as individual performance, tenure, and size, scope and complexity of their positions. The Chief Executive Officer makes specific recommendations to the Compensation Committee concerning the compensation of his direct reports and other senior executives, including the executive officers. These recommendations usually relate to base salary increases and stock option grants. The Chief Executive Officer also recommends pay packages for newly hired executives. Management provides the Compensation Committee with data, analyses and perspectives on market trends and annually prepares information to assist the Compensation Committee in its consideration of such recommendations. Annual incentive awards are based on achievement of business objectives set by the Compensation Committee, but the Compensation Committee may exercise negative discretion, and if it does so, it is typically in reliance on the Chief Executive Officer's assessment of an individual's performance.

The Chief Executive Officer does not make recommendations to the Compensation Committee regarding his own compensation. The Senior Vice President, Human Resources has direct discussions with the Compensation Committee Chair regarding the Compensation Committee's recommendations on the Chief

[Table of Contents](#)

Executive Officer's compensation; however, Compensation Committee discussions of specific pay actions related to the Chief Executive Officer are held outside his presence.

Does AutoZone use compensation consultants?

Neither AutoZone management nor the Compensation Committee hired executive compensation consultants during fiscal 2012. Although historically we have hired consultants to provide services from time to time, it is not our usual practice, and as discussed previously, AutoZone does not regularly engage consultants as part of our annual review and determination of executive compensation. The Compensation Committee has authority, pursuant to its charter, to hire consultants of its selection to advise it with respect to AutoZone's compensation programs, and it may also limit the use of the Compensation Committee's compensation consultants by AutoZone's management as it deems appropriate.

What are AutoZone's peer group and compensation benchmarking practices?

AutoZone reviews publicly-available data from a peer group of companies to help us ensure that our overall compensation remains competitive. The peer group data we use is from proxy filings and other published sources — it is not prepared or compiled especially for AutoZone.

We periodically review the appropriateness of this peer group. It typically has changed when such events as acquisitions and spin-offs have occurred. The peer group companies listed below, which remained unchanged in 2012, were selected in 2010 using the following criteria:

- Direct competitors;
- Companies with which we compete for talent, customers and capital; and
- Companies with revenues ranging between 50% and 200% of AutoZone's revenues.

	<u>AutoZone Peer Group</u>	
Advance Auto Parts	Dollar Tree	O'Reilly Automotive
Barnes & Noble	Family Dollar Stores	Pep Boys-Manny Moe & Jack
Bed Bath & Beyond	Foot Locker	PetSmart
Brinker International	Gamestop	Radioshack
Darden Restaurants	Gap Stores	Ross Stores
Dick's Sporting Goods	Genuine Parts	Sherwin Williams
Dollar General	Limited Brands	Starbucks
		Yum! Brands

We do not use information from the peer group or other published sources to set targets or make individual compensation decisions. AutoZone does not engage in "benchmarking," such as targeting base salary at peer group median for a given position. Rather we use such data as context in reviewing AutoZone's overall compensation levels and approving recommended compensation actions. Broad survey data and peer group information are just two elements that we find useful in maintaining a reasonable and competitive compensation program. Other elements that we consider are individual performance, Company performance, individual tenure, position tenure, and succession planning.

What is AutoZone's policy concerning the taxation of compensation?

The Compensation Committee considers the provisions of Section 162(m) of the Internal Revenue Code which allows the Company to take an income tax deduction for compensation up to \$1 million and for certain compensation exceeding \$1 million paid in any taxable year to a "covered employee" as that term is defined in the Code. There is an exception for qualified performance-based compensation, and AutoZone's compensation program is designed to maximize the tax deductibility of compensation paid to executive officers, where

[Table of Contents](#)

possible. However, the Compensation Committee may authorize payments which are not deductible where it is in the best interests of AutoZone and its stockholders.

Plans or payment types which qualify as performance-based compensation include the EICP, PRSUs and stock options. Base salaries, restricted stock awards and the Executive Stock Purchase Plan grants do not qualify as performance-based under 162(m). Portions of the Chief Executive Officer's compensation may therefore be non-deductible, although the impact, if any, on the Company would be immaterial. The base salaries, and any awards under the Executive Stock Purchase Plan, for each executive officer other than the Chief Executive Officer, were fully deductible in 2012, because in no case did the sum of this compensation exceed \$1 million.

Section 409A of the Internal Revenue Code was created with the passage of the American Jobs Creation Act of 2004. These new tax regulations create strict rules related to non-qualified deferred compensation earned and vested on or after January 1, 2005. The Internal Revenue Service periodically releases Notices and other guidance related to Section 409A, and AutoZone continues to take actions necessary to comply with the Section's requirements by the deadlines established by the Internal Revenue Service.

Compensation Committee Report

The Compensation Committee of the Board of Directors (the "Committee") has reviewed and discussed with management the Compensation Discussion and Analysis ("CD&A"). Based on the review and discussions, the Committee recommended to the Board of Directors that the CD&A be included in this proxy statement.

Members of the Compensation Committee:

Earl G. Graves, Jr., Chair
Robert R. Grusky
George R. Mrkonic, Jr.

Compensation Committee Interlocks and Insider Participation

The Compensation Committee is composed solely of independent, non-employee directors. The members of the Compensation Committee of the Board of Directors during the 2012 fiscal year are listed above. In addition Theodore W. Ullyot served as the Chairman of the Compensation Committee until December 2011.

Compensation Program Risk Assessment

AutoZone's management conducts an annual assessment of the compensation plans and programs that apply throughout the Company, including those plans and programs in which our executives participate. The assessment is performed by key members of AutoZone's human resources, finance, operations, and legal teams, and entails thorough discussions of each plan's or program's design and operation. The findings are reviewed by senior management prior to being reviewed and discussed with the Compensation Committee.

Plan elements which are reviewed include participants, performance measures, performance and payout curves or formulas, how target level performance is determined (including whether any thresholds and caps exist), how frequently payouts occur, and the mix of fixed and variable compensation which the plan delivers. The plans and programs are also reviewed from the standpoint of reasonableness (e.g., how target and above-target pay levels compare to similar plans for similar populations at other companies, and how payout amounts relate to the results which generate the payment), how well the plans and programs are aligned with AutoZone's goals and objectives, and from an overall standpoint, whether these plans and programs represent an appropriate mix of short- and long-term compensation.

The purpose of these reviews is to determine whether the risks related to the design and operation of these plans and programs, if present, are reasonably likely to have a material adverse effect on the company. We believe that our compensation policies and practices do not encourage excessive risk-taking and are not

[Table of Contents](#)

reasonably likely to have a material adverse effect on the company. The various mitigating factors which support this conclusion include:

- Oversight of the management incentive plan and all stock-based compensation by the Compensation Committee of the Board of Directors;
- Senior management oversight of key plans and programs, including approving target level payouts, setting financial and operating goals, and approving payouts;
- Administration and oversight of plans and programs by multiple functions within the Company (e.g., finance, operations and human resources);
- Interrelationship between measures (e.g., correlation between economic profit performance and appreciation in the per-share price of AutoZone's stock);
- Vesting and stock ownership requirements which encourage long-term perspectives among participants; and
- A preference for performance measures which result in payments only upon achievement of ultimate financial results.

- (1) Represents potential threshold, target and maximum incentive compensation for the 2012 fiscal year under the EICP based on each officer's salary on the date the 2012 fiscal year targets were approved. The amounts actually paid for the 2012 fiscal year are described in the "Non-Equity Incentive Plan Compensation" column in the Summary Compensation Table. The "threshold" is the minimum payment level under the EICP which is 50% of the target amount. There is no overall percentage maximum; however, awards paid to any individual pursuant to the EICP may not exceed \$4 million. See "Compensation Discussion and Analysis" at page 19 and the discussion following this table for more information on the EICP.
- (2) Represents shares awarded pursuant to the Executive Stock Purchase Plan. See "Compensation Discussion and Analysis" at page 19 and the discussion following this table for more information on the Executive Stock Purchase Plan.

Discussion of Plan-Based Awards Table

Executive Incentive Compensation Plan. The EICP is intended to be a performance-based compensation plan under Section 162(m) of the Internal Revenue Code. The Company's executive officers, as determined by the Compensation Committee of the Board of Directors, are eligible to participate in the EICP. At the beginning of each fiscal year, the Compensation Committee establishes a goal, which may be a range from a minimum to a maximum attainable bonus, based on one or more of the following measures:

- Earnings
- Earnings per share
- Sales
- Market share
- Operating or net cash flows
- Pre-tax profits
- Earnings before interest and taxes (EBIT)
- Return on invested capital
- Economic value added
- Return on inventory
- EBIT margin
- Sales per square foot
- Comparable store sales

The EICP provides that the goal may be different for different executives. The goals can change annually to support our business objectives. After the end of each fiscal year, the Compensation Committee must certify the attainment of goals under the EICP and direct the amount to be paid to each participant in cash. See "Compensation Discussion and Analysis" on page 19 for more information about the EICP.

Executive Stock Purchase Plan. The Executive Stock Purchase Plan permits participants to acquire AutoZone common stock in excess of the purchase limits contained in AutoZone's Employee Stock Purchase Plan. Because the Executive Stock Purchase Plan is not required to comply with the requirements of Section 423 of the Internal Revenue Code, it has a higher limit on the percentage of a participant's compensation that may be used to purchase shares (25%) and places no dollar limit on the amount of a participant's compensation that may be used to purchase shares under the plan. For more information about the Executive Stock Purchase Plan, see "Compensation Discussion and Analysis" on page 19.

Stock Options. Stock options are awarded to many levels of management, including executive officers, to align the long-term interests of AutoZone's management and our stockholders. During the 2012 fiscal year, 588 AutoZone employees received stock options. The stock options shown in the table were granted pursuant to the 2011 Equity Plan.

Both incentive stock options and non-qualified stock options, or a combination of both, can be granted under the 2011 Equity Plan. Incentive stock options have a maximum term of ten years, and non-qualified stock options have a maximum term of ten years and one day. Options granted during the 2012 fiscal year vest in one-fourth increments over a four-year period. All options granted under the 2011 Equity Plan have an exercise price equal to the fair market value of AutoZone common stock on the date of grant, which is defined as the closing price on the grant date. Option repricing is expressly prohibited by the terms of the 2011 Equity Plan.

Each grant of stock options is governed by the terms of a Stock Option Agreement entered into between the Company and the executive officer at the time of the grant. The Stock Option Agreements provide vesting schedules and other terms of the grants in accordance with the 2011 Equity Plan.

Under the 2011 Equity Plan, participants may receive equity-based compensation in the form of stock appreciation rights, restricted shares, restricted share units, dividend equivalents, deferred stock, stock payments, performance share awards and other incentive awards structured by the Compensation Committee and the Board within parameters set forth in the Plan.

The aggregate number of shares of AutoZone common stock available for equity grants pursuant to the 2011 Equity Plan will be reduced by two shares for every share delivered in settlement of an award other than (i) a stock option, (ii) a stock appreciation right or (iii) any other award for which the holder pays the intrinsic value existing as of the date of grant (such awards, "Full Value Awards"). To the extent that any award other

[Table of Contents](#)

than a Full Value Award is forfeited, expires or is settled in cash without the delivery of shares to the holder, then any shares subject to the award will again be available for the grant of an award pursuant to the 2011 Equity Plan; if such forfeited, expired or cash-settled award is a Full Value Award, then the number of shares available under the 2011 Equity Plan will be increased by two shares for each share subject to the award that is forfeited, expired or cash-settled. However, shares tendered or withheld in payment of the exercise price of an option or in satisfaction of any tax withholding obligations with respect to an award, shares subject to a stock appreciation right that are not issued in connection with the stock settlement of the stock appreciation right on exercise thereof, and shares purchased on the open market with the cash proceeds from the exercise of options, will not again be available for the grant of an award pursuant to the 2011 Equity Plan. Any shares of restricted stock repurchased by AutoZone at the same price paid by the participant, so that such shares are returned to AutoZone, will again be available for awards granted pursuant to the 2011 Equity Plan. The payment of dividend equivalents in cash in conjunction with any outstanding awards will not be counted against the shares available for issuance under the 2011 Equity Plan.

- (1) As the plan benefits were frozen as of December 31, 2002, there is no service cost and increases in future compensation levels no longer impact the calculations. The benefit of each participant is accrued based on a funding formula computed by our independent actuaries, Mercer. See Note L, Pension and Savings Plans, to our consolidated financial statements in our 2012 Annual Report for a discussion of our assumptions used in determining the present value of the accumulated pension benefits.

Prior to January 1, 2003, substantially all full-time AutoZone employees were covered by a defined benefit pension plan, the AutoZone, Inc. Associates Pension Plan (the "Pension Plan"). The Pension Plan is a traditional defined benefit pension plan which covered full-time AutoZone employees who were at least 21 years old and had completed one year of service with the Company. The benefits under the Pension Plan were based on years of service and the employee's highest consecutive five-year average compensation. Compensation included total

[Table of Contents](#)

annual earnings shown on Form W-2 plus any amounts directed on a tax-deferred basis into Company-sponsored benefit plans, but did not include reimbursements or other expense allowances, cash or non-cash fringe benefits, moving expenses, non-cash compensation (regardless of whether it resulted in imputed income), long-term cash incentive payments, gain on exercise of stock options, payments under any insurance plan, payments under any weekly-paid indemnity plan, payments under any long term disability plan, nonqualified deferred compensation, or welfare benefits.

AutoZone also maintained a supplemental defined benefit pension plan for certain highly compensated employees to supplement the benefits under the Pension Plan as part of our Executive Deferred Compensation Plan (the "Supplemental Pension Plan"). The purpose of the Supplemental Pension Plan was to provide any benefit that could not be provided under the qualified plan due to IRS limitations on the amount of salary that could be recognized in the qualified plan. The benefit under the Supplemental Pension Plan is the difference between (a) the amount of benefit determined under the Pension Plan formula but using the participant's total compensation without regard to any IRS limitations on salary that can be recognized under the qualified plan, less (b) the amount of benefit determined under the Pension Plan formula reflecting the IRS limitations on compensation that can be reflected under a qualified plan.

In December 2002, both the Pension Plan and the Supplemental Pension Plan were frozen. Accordingly, all benefits to all participants in the Pension Plan were fixed and could not increase, and no new participants could join the plans.

Annual benefits to the Named Executive Officers are payable upon retirement at age 65. Sixty monthly payments are guaranteed after retirement. The benefits will not be reduced by Social Security or other amounts received by a participant. The basic monthly retirement benefit is calculated as 1% of average monthly compensation multiplied by a participant's years of credited service. Benefits under the Pension Plan may be taken in one of several different annuity forms. The actual amount a participant would receive depends upon the payment method chosen.

A participant in the Pension Plan is eligible for early retirement under the plan if he or she is at least 55 years old AND was either (a) a participant in the original plan as of June 19, 1976; or (b) has completed at least ten (10) years of service for vesting (i.e. years in which the participant worked at least 1,000 hours after becoming a Pension Plan participant). The early retirement date will be the first of any month after the participant meets these requirements and chooses to retire. Benefits may begin immediately, or the participant may elect to begin receiving them on the first of any month between the date he or she actually retires and the normal retirement date. If a participant elects to begin receiving an early retirement benefit before the normal retirement date, the amount of the accrued benefit will be reduced according to the number of years by which the start of benefits precedes the normal retirement date. Mr. Goldsmith is eligible for early retirement under the Pension Plan.

Messrs. Rhodes and Goldsmith are participants in the Pension Plan and the Supplemental Pension Plan. No named officers received payment of a retirement benefit in fiscal 2012.

Larry M. Roesel	Executive Deferred Compensation Plan	183,492	24,753	40,531	—	555,389

- (1) Represents contributions by the Named Executive Officers under the AutoZone, Inc. Executive Deferred Compensation Plan (the "EDCP"). Such contributions are included under the appropriate "Salary" and "Non-Equity Incentive Plan Compensation" columns for the Named Executive Officers in the Summary Compensation Table.
- (2) Represents matching contributions by the Company under the EDCP. Such contributions are included under the "All Other Compensation" column for the Named Executive Officers in the Summary Compensation Table.
- (3) Represents the difference between the aggregate balance at end of fiscal 2012 and the end of fiscal 2011, excluding (i) contributions made by the executive officer and the Company during fiscal 2012 and (ii) any withdrawals or distributions during fiscal 2012. None of the earnings in this column were included in the Summary Compensation Table because they were not preferential or above market.

Officers of the Company with the title of vice president or higher based in the United States are eligible to participate in the EDCP after their first year of employment with the Company. As of August 25, 2012, there were 42 such officers of the Company. The EDCP is a nonqualified plan that allows officers to make a pretax deferral of base salary and bonus compensation. Officers may defer up to 25% of base salary and bonus, minus deferrals under the 401(k) plan. The Company matches 100% of the first 3% of deferred compensation and 50% of the next 2% deferred. Participants may select among various mutual funds in which to invest their deferral accounts. Participants may elect to receive distribution of their deferral accounts at retirement or starting in a specific future year of choice before or after anticipated retirement (but not later than the year in which the participant reaches age 75). If a participant's employment with AutoZone terminates other than by retirement or death, the account balance will be paid in a lump sum payment six months after termination of employment. There are provisions in the EDCP for withdrawal of all or part of the deferral account balance in the event of an extreme and unforeseen financial hardship.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Our Named Executive Officers may receive certain benefits if their employment terminates under specified circumstances. These benefits derive from Company policies, plans, agreements and arrangements described below.

Agreement with Mr. Rhodes

In February 2008, Mr. Rhodes and AutoZone entered into an agreement (the “Agreement”) providing that if Mr. Rhodes’ employment is terminated by the Company without cause, he will receive severance benefits consisting of an amount equal to 2.99 times his then-current base salary, a lump sum prorated share of any unpaid annual bonus incentive for periods during which he was employed, and AutoZone will pay the cost of COBRA premiums to continue his medical, dental and vision insurance benefits for up to 18 months to the extent such premiums exceed the amount Mr. Rhodes had been paying for such coverage during his employment. The Agreement further provides that Mr. Rhodes will not compete with AutoZone or solicit its employees for a three-year period after his employment with AutoZone terminates.

Executive Officer Agreements (Messrs. Giles, Griffin and Roesel)

In February 2008, AutoZone’s executive officers who do not have written employment agreements, including Messrs. Giles and Roesel, entered into agreements (“Severance and Non-Compete Agreements”) with the Company providing that if their employment is involuntarily terminated without cause, and if they sign an agreement waiving certain legal rights, they will receive severance benefits in the form of salary continuation for a period of time ranging from 12 months to 24 months, depending on their length of service at the time of termination. Mr. Griffin entered into a Severance and Non-Compete Agreement when he joined AutoZone in June 2012. Mr. Giles presently has six years of service, Mr. Roesel has five and Mr. Griffin has less than one year of service.

<u>Years of Service</u>	<u>Severance Period</u>
Less than 2	12 months
2 – less than 5	18 months
5 or more	24 months

The executives will also receive a lump sum prorated share of their annual bonus incentive when such incentives are paid to similarly-situated executives. Medical, dental and vision insurance benefits generally continue through the severance period up to a maximum of 18 months, with the Company paying the cost of COBRA premiums to the extent such premiums exceed the amount the executive had been paying for such coverage. An appropriate level of outplacement services may be provided based on individual circumstances.

The Severance and Non-Compete Agreement further provides that the executive will not compete with AutoZone or solicit its employees for a two-year period after his or her employment with AutoZone terminates.

Employment Agreement with Mr. Goldsmith

Mr. Goldsmith’s employment agreement (the “Employment Agreement”) was amended and restated on December 29, 2008, to bring it into compliance with Section 409A of the Internal Revenue Code. The Employment Agreement originally dated 1999, continues until terminated either by Mr. Goldsmith or by AutoZone.

If the Employment Agreement is terminated by AutoZone for cause, or by Mr. Goldsmith for any reason, Mr. Goldsmith will cease to be an employee, and will cease to receive salary, bonus, and other benefits. “Cause” is defined as the willful engagement in conduct which is demonstrably or materially injurious to AutoZone, monetarily or otherwise. No act or failure to act will be considered “willful” unless done, or omitted to be done, not in good faith and without reasonable belief that the action or omission was in the best interest of AutoZone.

Table of Contents

If the Employment Agreement is terminated by AutoZone without cause, and Mr. Goldsmith experiences a “separation from service” (within the meaning of Section 409A and related regulations), Mr. Goldsmith will receive certain benefits for three years after the termination date (the “Continuation Period”). Mr. Goldsmith will receive his then-current base salary during the Continuation Period, and will receive a prorated bonus for the fiscal year in which he was terminated, but no bonuses thereafter. Mr. Goldsmith’s stock options that would have vested during the Continuation Period will immediately vest on his termination date, and all vested stock options may be exercised in accordance with the respective stock option agreements until the first to occur of (i) 30 days after the end of the Continuation Period or (ii) the expiration of the respective stock option agreement, without regard to any possible early expiration resulting from Mr. Goldsmith’s termination. Medical, dental and vision benefit coverage under an AutoZone group health plan will continue for a period of time equal to the sum of Mr. Goldsmith’s maximum COBRA coverage period plus the Continuation Period. Mr. Goldsmith will also receive a lump sum payment equal to three times (3X) the total aggregate annual COBRA premium costs for group medical, dental and vision benefit coverage for himself and his dependents as in effect immediately prior to his termination.

Mr. Goldsmith agrees to release AutoZone from any and all obligations other than those set forth in his Employment Agreement. If Mr. Goldsmith’s employment is terminated by AutoZone, or by Mr. Goldsmith for reasons other than a change in control, then he will be prohibited from competing against AutoZone or hiring AutoZone employees for a period of time equal to the Continuation Period. “Change in control” in the Employment Agreement means either the acquisition of a majority of AutoZone’s voting securities by or the sale of substantially all of AutoZone’s assets to a non-affiliate of the company.

Equity Plans

All outstanding, unvested stock options, including those held by the Named Executive Officers, will vest immediately upon the option holder’s death pursuant to the terms of the stock option agreements.

Unvested share options under our Executive Stock Purchase Plan, which normally are subject to forfeiture if a participant’s employment terminates prior to the first anniversary of their acquisition, will vest immediately if the termination is by reason of the participant’s death, disability, termination by the Company without cause, or retirement on or after the participant’s normal retirement date. The plan defines “disability,” “cause,” and “normal retirement date.”

Under Mr. Rhodes’ Performance-Based Restricted Stock Units Award Agreement, described on page 25, any Restricted Stock Units that have been earned (i.e., the performance conditions have been met) but have not become vested, will become vested and will be paid in shares of AutoZone common stock as soon as practicable after the date of Mr. Rhodes’ termination of employment by the Company without cause (as defined in the award agreement) or due to his death or disability. Any Restricted Stock Units which have not been earned as of the date on which Mr. Rhodes’ employment with AutoZone terminates for any reason shall not become vested.

Life Insurance

AutoZone provides all salaried employees in active full-time employment in the United States a company-paid life insurance benefit in the amount of two times annual earnings. “Annual earnings” exclude stock compensation and gains realized from stock option exercises, but include salary and incentive compensation received. Additionally, salaried employees are eligible to purchase additional life insurance subject to insurability above certain amounts. The maximum benefit of the company-paid and the additional coverage combined is \$5,000,000. All of the Named Executive Officers are eligible for this benefit.

Disability Insurance

All full-time officers at the level of vice president and above are eligible to participate in two executive long-term disability plans. Accordingly, AutoZone purchases individual disability policies for its executive officers that pay 70% of the first \$7,143 of insurable monthly earnings in the event of disability. Additionally,

[Table of Contents](#)

the executive officers are eligible to receive an executive long-term disability plan benefit in the amount of 70% of the next \$35,714 of insurable monthly earnings to a maximum benefit of \$25,000 per month. AutoZone purchases insurance to cover this plan benefit. These two benefits combined provide a maximum benefit of \$30,000 per month. The benefit payment for these plans may be reduced by deductible sources of income and disability earnings. Mr. Goldsmith is only covered under the group long-term disability program, under which he is eligible to receive 70% of monthly earnings to a maximum benefit of \$30,000 per month.

The following table shows the amounts that the Named Executive Officers would have received if their employment had been terminated under specified circumstances on August 25, 2012. This table does not include amounts related to the Named Executive Officers' vested benefits under our deferred compensation and pension plans or pursuant to stock option awards, all of which are described in the tables above.

The Audit Committee is to consider all of the available relevant facts and circumstances of each transaction, including but not limited to the benefits to the Company; the impact on a director’s independence in the event the Related Person is a director, an immediate family member of a director or an entity in which a director is a partner, shareholder or executive officer; the availability of other sources for comparable products or services; the terms of the transaction; and the terms available to unrelated third parties generally. Related Person Transactions must also comply with the policies and procedures specified in our Code of Ethics and Business Conduct and Corporate Governance Principles, as described below.

The Policy also requires disclosure of all Related Person Transactions that are required to be disclosed in AutoZone’s filings with the Securities and Exchange Commission, in accordance with all applicable legal and regulatory requirements.

A “Related Person Transaction” is defined in the Policy as a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) that occurred since the beginning of the
